there a cultural logic of what we have come to call the information age Have the technologies and techniques centered on the computer provided not only tools but also the metaphors through which we now understand the social and economic

formation of our world In Control Seb Franklin addresses the conditions of knowledge that make the concept of the information economy possible while at the same time obscuring its deleterious effects on material social spaces In so doing

Franklin traces three intertwined threads the relationships among information labor and social management that emerged in the nineteenth century the mid twentieth century diffusion of computational metaphors and the appearance of informatic

principles in certain contemporary socioeconomic and cultural practices Drawing on critical theory media theory and the history of science Franklin names control as the episteme grounding late capitalism Beyond any specific device or set of

technically mediated practices digitality functions within this episteme as the logical basis for reshaped concepts of labor subjectivity and collectivity as well as for the intensification of older modes of exclusion and dispossession In tracking the

pervasiveness of this logical mode into the present Franklin locates the cultural traces of control across a diverse body of objects and practices from cybernetics to economic theory and management styles and from concepts of language and

subjectivity to literary texts films and video games Plays: Aeschylus Prometheus bound. Sophocles Oedipus rex. Euripides Medea. Aristophanes The knights. Calderon, P. Life a dream. Molière The misanthrope. Racine, J. B. Phædra. Goldsmith, O.
