Hansen, M. Debussche, 2012-12-06 In view of the massive change in the area of distribution of many world biota across classical biogeographical realms and of the drastic restructuring of the biotic components of numerous ecosystems the Scientific Committee on Problems of the Environment SCOPE decided at its general Assembly in Ottawa Canada in 1982 to launch a project on the Ecology of Biological Invasions Several regional meetings were subsequently organized within the framework of SCOPE in order to single out the peculiarities of the invasions that took place in each region the behaviour of their invasive species and the invasibility of their ecosystems Most noteworthy among such workshops were one in Australia in August 1984 one concerning North America and Hawaii in October 1984 and one dealing with southern Africa in November 1985 A leitmotiv of these workshops was that most of the invasive species to those regions were emanating from Europe and the Mediterranean Basin inadvertently or intentionally introduced by man It was therefore considered as a timely endeavour to organize the next regional meeting in relation to this region The workshop on Biological Invasions in Europe and the Mediterranean Basin was held in Montpellier France 21 to 23 May 1986 thanks to the financial support of SCOPE and of the A W Mellon Foundation and the logistic facilities of the Centre National de la Recherche Scientifique C N R S **Current Catalog** National Library of Medicine (U.S.), First multi year cumulation covers six years 1965 70 *Molecular Ecology Resources*, 2008 Subject Guide to Books in Print, 1984 **Library of Congress Catalog** Library of Congress, 1973 Beginning with 1953 entries for Motion pictures and filmstrips Music and phonorecords form separate parts of the Library of Congress catalogue Entries for Maps and atlases were issued separately 1953 1955 **The Experimental Biology of Ferns** A.
