Handbook of Research on Lifestyle Sustainability and Management Solutions Using AI, Big Data Analytics, and Visualization Iyer, Sailesh, Suryanarayanan, Jain, Arti, Wang, John, 2021-12-24. The sudden outbreak of the COVID 19 pandemic has curbed human lifestyle by imposing restrictions on regular daily movements that had been taken for granted. Due to the pandemic, the welfare segment has received more attention and every possible effort is being made to prioritize the services at the top. This can be made possible while using the latest tools, technologies and resources that impact the human culture and welfare of well-being. Novel methods and devices that make the welfare services more efficient, adaptive, transparent and cost effective need to be explored. The Handbook of Research on Lifestyle Sustainability and Management Solutions Using AI, Big Data Analytics and Visualization offers extensive research on lifestyle management and services that contribute towards indication detection, conduction, protection and technological enhancement including machine learning, deep learning, artificial intelligence, big data analytics and visualization. It also provides mechanisms that can improve lifestyle monitoring and help in increasing the immunity of the human body. Covering topics such as big data, robot therapy and wearable.
