On The Internet Thinking In Action:

On the Internet Hubert L. Dreyfus, 2009 First Published in 2008 Routledge is an imprint of Taylor Francis an informa company *Media Literacy Education in Action* Belinha S. De Abreu, Paul Mihailidis, 2013-12-17 Media Literacy Education in Action brings together the field's leading scholars and advocates to present a snapshot of the theoretical and conceptual development of media literacy education what has influenced it current trends and ideas about its future. Featuring a mix of perspectives it explores the divergent ways in which media literacy is connected to educational communities and academic areas in both local and global contexts. The volume is structured around seven themes: Media Literacy Past and Present, Digital Media and Learning, Global Perspectives, Public Spaces, Civic Activism, Policy and Digital Citizenship, Future Connections. Compelling, well organized and authoritative this one stop resource for understanding more about media literacy education across disciplines, cultures and divides offers the fresh outlook that is needed at this point in time. Globally as more and more states and countries call for media literacy education more explicitly in their curriculum guidelines, educators are being required to teach media literacy in both elementary and secondary education contexts.

Mindfulness in Internet and New Media Wen-Ko Chiou, Chao Liu, Hao Chen, Shuhua Zhou, 2023-10-24 Mindfulness is about being aware in a certain way, being consciously aware on purpose, living in the present moment without mental judgment. In addition to the in-depth application of mindfulness in different subdisciplines of psychology e.g. social, personality, clinical, developmental, health, organizational, there is also a trend toward cross fertilization with other social and behavioral disciplines e.g. design, kinesiology, sociology, family studies, education, anthropology, neuroscience, philosophy, economics, medicine, organizational science. However, the application of mindfulness in the field of communication is limited. With the rapid development of the Internet and new media, the study of Internet communication is growing rapidly. The Internet and new media make it easy to connect with others, explore a new world, and regard cyberspace as an extension of one's own thoughts and personality. Nevertheless, when people use the Internet and new media mindlessly, they will easily experience the social effects on their virtual selves and encounter psychological problems e.g. network morality, network anxiety, network pornography, network addiction, and cyberbullying, which has become a widespread and serious problem. As an important part of positive psychology, mindfulness intervention has been proved to help improve a series of negative psychological states and promote positive emotions and subjective well-being. However, what theoretical and practical contributions can mindfulness in the Internet and new media bring remains unknown. Thus, this Research Topic focuses on the influence and intervention of mindfulness on the psychological problems caused by the network new media communication. We welcome high quality studies using a variety of research methods including quantitative, qualitative, mixed methods and reviews on the second generation of mindfulness interventions and other meditation based interventions e.g. focused attention, meditation, transcendental meditation, and loving-kindness meditation. This Research Topic encourages submissions that cover but are not limited to the following topics:

1 The internet and new media guided mindfulness and loving kindness meditation practice 2 Mindfulness and interpersonal communication in the network network trust network security network intimacy 3 Mindfulness and network clustering behavior 4 Mindfulness and online consumer psychology 5 Mindfulness and cyber moral psychology cyberbullying cyber altruism and prosocial behavior 6 Mindfulness and online pornography 7 Mindfulness and internet addiction 8 Mindfulness and online psychological counseling 9 Mindfulness and new media anxiety **Internet Addiction** Daria J. Kuss, Halley M. Pontes, 2018-11-21 This book examines how you can identify assess and treat Internet addiction in the most effective manner Internet use has become an integral part of our daily lives but at what point does Internet use become problematic What are the different kinds of Internet addiction And how can professionals best help clients Internet addiction refers to a range of behavioral problems including social media addiction and Internet gaming disorder This compact evidence based guide written by leading experts from the field helps disentangle the debates and controversies around Internet addiction and outlines the current assessment and treatment methods The book presents a 12 15 session treatment plan for Internet and gaming addiction using the method and setting with the best evidence group CBT Printable tools in the appendix help clinicians implement therapy This accessible book is essential reading for clinical psychologists psychiatrists psychotherapists counsellors social workers teachers as well as students The Philosophers' Magazine ,2001

Taking Action on Internet Gambling Russell K. Mayer,2014-03-06 This book uses the case of the rise and fall of the Internet gambling industry to illustrate a new approach to understanding how public policy is made in the United States The theory advanced is that different phases of the policy process are governed by three distinct political dynamics constraint momentum and discretion The book maps this CMD model of the policy process onto the case of Internet gambling examining the full range of political venues in which issues of public policy are acted upon It argues that constraint rules the day in the early phases of the policy process momentum builds in the middle and discretion comes into play most prominently as the policy cycle concludes This CMD model both draws attention to previously understudied elements of policymaking and explores the dynamic and interrelated nature of these three phases of the policy process
