Herman Kahn

On Thermonuclear War:

On Thermonuclear War Herman Kahn, Evan Jones, 2017-07-12 On Thermonuclear War was controversial when originally published and remains so today It is iconoclastic crosses disciplinary boundaries and finally it is calm and compellingly reasonable The book was widely read on both sides of the Iron Curtain and the result was serious revision in both Western and Soviet strategy and doctrine As a result both sides were better able to avoid disaster during the Cold War The strategic concepts still apply defense local animosities and the usual balance of power issues are still very much with us Kahn s stated purpose in writing this book was simply avoiding disaster and buying time without specifying the use of this time By the late 1950s with both sides H bomb armed reason and time were in short supply Kahn a military analyst at Rand since 1948 understood that a defense based only on thermonuclear armaments was inconceivable morally questionable and not credible The book was the first to make sense of nuclear weapons Originally created from a series of lectures it provides insight into how policymakers consider such issues One may agree with Kahn or disagree with him on specific issues but he clearly defined the terrain of the argument He also looks at other weapons of mass destruction such as biological and chemical and the history of their use The Cold War is over but the nuclear genie is out of the bottle and the lessons and principles developed in On Thermonuclear War apply as much to today s China Russia Iran and North Korea as they did to the Soviets

The Worlds of Herman Kahn Sharon Ghamari-Tabrizi, 2005-04-22 In telling Kahn s story Ghamari Tabrizi captures a time whose innocence gruesome nuclear humor and outrageous but deadly serious visions of annihilation have their echoes in the known unknowns and unknown unknowns that guide policymakers in our own embattled world

On Thermonuclear War, 1960 **On Thermonuclear War** Herman Kahn, 1966 *On Thermonuclear War* Herman Kahn, 1961 **On Thermonuclear War** Herman Kahn, 1969 **On Thermonuclear War** Herman Kahn, 1969 **On Thermonuclear War** Herman Kahn, 1967 **On thermonuclear war** Herman Kahn, 1969 **Three Lectures on Thermonuclear War** Herman Kahn, 1959 **On Thermonuclear War** Herman Kahn, 1959 Destroying the Village Campbell Craig, 1998 In the early days of the Cold War thermonuclear conflict was everywhere an imminent threat With the realization that mutual destruction was the likely result of a nuclear war US policy makers were forced to articulate a coherent stance on what they would do if the United States went to war with the USSR The paradox of defeat or mutual annihilation was one that plagued American policy makers and scholars whatever their stated position

Nuclear Weapons and the Threat of Nuclear War John B. Harris, Eric Markusen, 1986 **Cinematic Cold War** Tony Shaw, Denise Jeanne Youngblood, 2010 The first book length survey of cinema s vital role in the Cold War cultural combat between the U S and the USSR Focuses on 10 films five American and five Soviet both iconic and lesser known works showing that cinema provided a crucial outlet for the global debate between democratic and communist ideologies

The Morality of War Ernest Ruede, 1970 *Provisional Cities* Renata Tyszczyk, 2017-11-02 This book considers the provisional nature of cities in

relation to the Anthropocene the proposed geological epoch of human induced changes to the Earth system It charts an environmental history of curfews admonitions and alarms about dwelling on Earth Provisional cities are explored as exemplary sites for thinking about living in this unsettled time Each chapter focuses on cities settlements or proxy urbanisations including past disaster zones remote outposts in the present and future urban fossils The book explores the dynamic changing and contradictory relationship between architecture and the global environmental crisis and looks at how to re position architectural and urban practice in relation to wider intellectual environmental political and cultural shifts The book argues that these rounder and richer accounts can better equip humanity to think through questions of vulnerability responsibility and opportunity that are presented by immense processes of planetary change These are cautionary tales for the Anthropocene Central to this project is the proposition that living with uncertainty requires that architecture is reframed as a provisional practice This book would be beneficial to students and academics working in architecture geography planning and environmental humanities as well as professionals working to shape the future of cities

Breakthrough to Peace Thomas Merton,1962 **The Presidency of Lyndon B. Johnson** Vaughn Davis Bornet,1983 Presents an assessment of the Johnson administration including the Vietnam issue *New World Review* ,1963 **The Saturday Evening Post** ,1959-03 SCC Library has 1974 89 plus scattered issues
