How will it affect me? What's realistic and what's just hype? How smart is my smart TV really? And is it watching me? Can smart IoT devices make me healthier? Will smart appliances ever be useful? How much energy could I save with a smart home? What's the future of wearable tech? When will I have a self-driving car? When will I have a nearly self-driving car? Hint: Surprisingly soon. Is IoT already changing the way I shop? What's the future of drones at war and in my neighborhood? Could smart cities lower my taxes? Who gets the data my devices are collecting? How can I profit from the Internet of Things? What happens when the whole world is connected? Will I have any privacy left at all?
