*Multidisciplinary Research in Arts, Science & Commerce (Volume-21)* Chief Editor- Biplab Auddy, Editor- Dr. Jay Prakash Rajak, Dr. Akheel Mohammed, Dr. (Mrs) Shirley Bless Agwuocha, Andriya Mallick, Dr. Sandip R. Kelode, Chalamalasetti Vana Venkata Madhur, 2025-03-27    [Library Programs and Services for New Adults](#) Kyla Hunt, 2017-10-06

Addressing the needs of new adults those ages 18-29 in the library is an important challenge. This book explains the needs and wants of new adults in the public library setting and identifies their preferences in physical space, programming and technology. According to the Pew Research Center's 2015 Libraries at the Crossroads Report, 52 percent of people between the ages of 16 and 29 visited a bookmobile or library within the past year. Yet many public libraries' programming and outreach skip over this demographic, jumping from teen services to older adults. [Library Programs and Services for New Adults](#) provides a road map for including new adults into the family of the small public library and offers a variety of resources and programming ideas that librarians can use immediately. Author Kyla Hunt, a library technology and trends specialist, explains why the needs of new adults are typically overlooked at public libraries. Readers will come away with an in-depth understanding of the mindset and needs of patrons who are 18 to 29 years old and be able to cater to their preferences as they pertain to physical space, programming, technology and marketing.    **Teaching Humanities & Social Sciences** Rob Gilbert, Libby Tudball, Peter Brett, 2019-10-17

*Teaching Humanities and Social Sciences* 7e prepares teachers to develop and implement programs in the humanities and social sciences learning area from F-10. It successfully blends theory with practical approaches to provide a basis for teaching that is engaging, inquiry based and relevant to students' lives. Using Version 8.1 of the Australian Curriculum, the text discusses the new structure of the humanities and social sciences learning area. Chapters on history, geography, civics and citizenship, and economics and business discuss the nature of these subjects and how to teach them to achieve the greatest benefit for students both as sub-strands within the Year F-6 HASS subject and as distinct Year 7-10 subjects. Throughout the book, it maintains its highly respected philosophical and practical orientation, including a commitment to deep learning in a context of critical inquiry. With the aid of this valuable text, teachers can assist primary, middle and secondary students to become active and informed citizens who contribute to a just, democratic and sustainable future.    [Virtual and Augmented Reality in English Language Arts Education](#) Clarice M.
