dancing device and don't change their approach to include TikTok content they'll be really bitter in a couple of years. Watching Instagram influencers repurpose Instagram content to TikTok at the start of lockdown shows the polished advertising on this site doesn't wash. We always noticed when Instagram stories came up there was a trend for shorter, more digestible content. Yet TikTok proves that users can return for more when you get the form of content right. According to official figures from TikTok, its customers remain faithful and are starting to return to the app. In fact, 90% of users use the app several times a day. Overall, TikTok is asking us to reconsider the way our content is strategized. I do hope these tips give you some ideas on how to handle TikTok and the way you prepare and create your content in general. **Mastering TikTok**

The Cradle of Citizenship James Traub, 2026-01-13 A devastating critique of our failure to prepare students for citizenship and a roadmap to a better way America's Founders placed great confidence in schools which they believed would teach young people to understand our political system and to engage in reasoned political debate as adults Yet today when virtually all Americans graduate from high school we remain stunningly ignorant of history and government In 2022 the National Assessment of Educational Progress found that only 13 percent of students scored a proficient level in history Adults do no better only 40 percent can name the three branches of government In The Cradle of Citizenship James Traub chronicles his year of observing public schools across the country talking to teachers scholars and curriculum designers He finds teachers in Florida who are afraid of discussing topics that might be seen as woke a red blue war incarnated in the 1619 Project and 1776 Report a profound disagreement over what exactly civic education means and most dismayingly ever diminishing expectations of students with ever dwindling attention spans Yet The Cradle of Citizenship also finds sources of hope Traub learns that despite endless right wing critiques virtually all social studies teachers keep their personal views to themselves and encourage students to develop views of their own He describes the extraordinary

collaboration between liberal and conservative scholars that led to the creation of Educating for American Democracy a roadmap for the teaching of civics Finally Traub describes the classical school a traditional model based on the study of great books and the conscious molding of character which is derided as reactionary in progressive circles yet prompts students to discuss books and ideas with depth Shedding light on one of the most divisive issues of our time The Cradle of Citizenship upholds a vision of civics education as it could be
