*Law and Technology* Nanci K. Carr, 2024-09-26 Technology is an important part of our everyday lives. Whether we ask Alexa to start the coffee machine or check our phones for the traffic report, we increasingly interact with technology. As much as we may enjoy and rely upon technology, it is not without its challenges, including the inability of the law to keep pace with technological developments and the ethical issues that arise. For example, tort law is impacted by technology. The proliferation of drones requires a new look at the law of trespass and video. Zoom meetings can impose direct liability on employers for example. Social media supports an increasing share of all advertising and endorsements and is subject to regulation of which influencers are often not aware. Global advertising expenditures on various internet and social media platforms also drives the need for a change in right of publicity law. In the United States, the right of publicity is governed by state rather than federal law, so there is no uniform approach. One part of the book includes a survey of the law of each US state and proposes a new federal statute. Although most of the examples are drawn from the US, the issues raised are fully international in scope and relevance. This book will appeal to legal practitioners trying to manage new technology issues facing their clients, academics teaching students how the law is changing and needs to continue to change as technology develops, and teachers and researchers in business and management schools needing to address technology and governance issues.

## **Drawing Lines**

**Lines** Kira Davis, 2023-01-25 Kira Davis has built a brand on reaching out to the other side on giving people space to be wrong, the space to discuss, the space to tolerate. I sincerely believe there are many reasonable people in America from all ideologies who are still willing to talk with each other. People who are quite happy to live and let live. Unfortunately, none of those people are controlling the conversations right now. Trump's presidency has burned away the niceties that tenuously held our political ecosystem together. We've had a front row seat to the strategy of the Left. We're seeing the lengths they will go to and the lies they let stand in service of crushing 50 percent of this nation. The onslaught of dishonesty has been relentless. The progressive left isn't happy to just let us live with our own values, our own media, our own cultural verticals. They seek to completely destroy ideological and financial competition. They seek unity through complete elimination of the other side. There are times for compromise and times to draw a line in the sand and friends the latter has arrived. It is time to draw our lines as Christians and Conservatives.
