Comprehensive Healthcare Simulation: Pharmacy Education, Practice and Research Yaser Mohammed Al-Worafi, 2023-07-27 This book provides comprehensive information about simulation in pharmacy education practice and research. It serves as a source for guiding pharmacy academics, clinicians, researchers, supervisors, trainers, and students who wish to learn more about and introduce simulation in pharmacy education practice and research. Furthermore, this book describes the current practice, the facilitators and barriers for implementing evidence-based simulation, and provides examples from real simulation practice in education practice and research. Structured into three sections, the first delves into the different types of simulation and their applications within pharmacy curricula. From patient simulation to computer-based programs, this section highlights the diverse opportunities for experiential learning in pharmacy education. The next discusses the role of simulation in community and hospital pharmacy settings. This section emphasizes the importance of communication skills, patient care, and medication safety, demonstrating how simulation can contribute to improved practice and patient outcomes. The last section explores the use of simulation in drug development and research design. This section also examines the ethical considerations, data analysis, and reporting involved in simulation-based research. Comprehensive and practical, **Comprehensive Healthcare Simulation: Pharmacy Education, Practice and Research** is an essential resource for anyone interested in the expanding field of pharmacy simulation.

Handbook of School Mental Health Steven W. Evans, Julie Sarno Owens, Catherine P. Bradshaw, Mark D. Weist, 2023-02-28 The handbook provides thoughtful and provocative critiques of the science and practice of school mental health. It examines intervention science and implementation science and the study of professional development and stakeholder engagement. The volume outlines the relevant issues facing the field of school mental health and provides a framework for the areas of study. Chapters critique the science in a specific area, draw innovative connections between findings, and present new information about their area of expertise. This handbook provides a concise and critical update of the literature in school mental health and is an essential resource for those from the wide range of disciplines that constitute the science and practice of school mental health. Key topics featured include: Promoting meaningful engagement and leadership in school mental health by diverse stakeholders; Training, coaching, and workforce development in school mental health; Intervention science for children with specific needs, e.g., anxiety, depression, trauma, autism; Innovations in scaling up and implementation science focusing on such topics as multitiered systems of support and scaleup of positive behavior support strategies. The handbook is an essential reference for researchers, graduate students, and other professionals in child and school psychology, special and general education, public health, school nursing, occupational therapy, psychiatry, social work, and counseling, educational policy, and family advocacy.
