Weight Loss: Eat Well, Eat Clean, Eat Right Pat White,2018-11-27 Metabolic rate slows down significantly as you get older Of course the older you get the less activity you engage in With your present weight you can determine your body mass index BMI BMI is a useful measure of overweight and obesity It is calculated using your height and weight BMI is usually the estimate of your body fat and a good gauge of your risk for diseases that occur with more body fat It is known that the higher your BMI the higher your risk for heart diseases high blood pressure type 2 diabetes gallstones apnea and other breathing problems and certain cancers It is estimated that over 7 million deaths worldwide are as a result of heart disease Nearly 10 million deaths were due to cancer In a few years it is estimated that cancer will claim 11 million lives every year going forward It gets worse It is estimated that by the year 2031 a little over a decade from now over 336 million people worldwide will be diabetic Presently over sixty six percent of Americans over the age of 20 are debilitatingly obese Are you obese Are you overweight What is your BMI With weight loss you must not successfully be living in discomfort to lose it all It will be miserable and you will spend all the hours you are awake thinking about food That is punishing and even an enemy must not be allowed to suffer such Lose the weight the right way without the discomfort Eat well eat clean eat right and watch the pounds melt away

Cancer: An Integrative Approach Doru Paul,2026-01-01 This book represents the synthesis of many current cancer theories which combined offers a novel and innovative approach in the diagnosis prevention and treatment of cancer It introduces a new and different paradigm in the diagnosis prevention and treatment of cancer by taking into account the organism as a whole which is very different from the current cellular tissular approach toward cancer In this new paradigm cancer involves dynamic

interactions with the entire body and its internal milieu. Focusing on these interactions will permit pre-clinical cancer diagnosis and novel treatment approaches. This onco-holobiont model integrates most of the current malignant process models and it is intended for the use of practitioners, clinicians, cancer researchers and students with a particular interest in cancer. The goal of this book is to inspire scientists to go beyond the current methods in the treatment of cancer and discover new paradigms.

Heard of the phrase but don't know where to start? Don't worry, we've got you covered. Intermittent fasting works by restricting the window of time in which you eat food; for example, only eating two meals per day within an 8-hour time period. It is a key therapeutic tool for a variety of hormone and health-related concerns and it turns aids weight loss. So what are you waiting for? Dive straight in to discover the fasting strategies available to you and learn how to select the best one to suit your individual needs and goals. Learn about the best foods to eat for weight loss and decide which diet is best for you. Select a meal plan that's already fine-tuned your suggested macronutrient intake. Enjoy over 50 delicious recipes that are rich in flavor and high in nutrients. This wonderful wellness book is accessible, easy to read, and is structured into two parts. Part 1 will help to uncover the science of fasting and identify your goals by selecting one of various fasting programs. Choose from several eating patterns: the 16:8 method, the Warrior Diet, the 5:2 diet, intuitive fasting, and alternate day fasts. Learn the answers to any burning questions you may have, such as: Can I drink water and coffee while fasting? and Is it okay to exercise while intermittent fasting? In Part 2, discover a plethora of meal plans and low-carb recipes that will aid your fasting diet. Meal plans are developed so that food leaves you satisfied for hours or even days. With lower-carb, higher-fat, and moderate-protein recipes, offer you the key nutrition you need to make your fasts productive and sustainable. Dr. Becky Gillaspy is your fasting coach and will be with you every step of the way.
