## **Lyft Usa Login:**

Minicars, Maglevs, and Mopeds Selima Sultana, Joe Weber, 2016-04-18 This book provides a fascinating look at the amazing diversity of forms of travel and transport around the world today in the context of cultures politics economics and environment of a place Across the timeline of human history transportation has played a role in the migration of people and information nation building economic development environmental alteration access to and the use of resources and even the fall of civilizations This single volume reference presents more than 150 entries that describe the most up to date surface transport technologies and routes in use on every continent including a broad range of road vehicles railroads person powered vehicles and even animals used for transportation The book melds transportation geography with culture politics economics and environment of place in its coverage of vehicles transportation technologies and some of the most famous streets rail systems and highways from around the world The entries are written by transport geography scholars to be accessible to general readers without technical backgrounds Each entry incorporates cross references that allow readers to easily find related entries making the book ideal for conducting specific research or completing school projects     **Spent behind the Wheel** Julietta Hua, Kasturi Ray, 2021-12-21 Exploring professional passenger driving and the gig economy through feminist theories of labor Are taxi drivers in today s era of the ride hail app performing care work akin to domestic and household labor So argue the authors of *Spent behind the Wheel* Bringing together sociological and legal perspectives with feminist theoretical insights Julietta Hua and Kasturi Ray examine the case study of contemporary professional passenger driving in the United States On the one hand they show the rise of the gig economy has brought new attention to the industry of professional passenger driving On the other hand the vulnerabilities that professional drivers experience remain hidden Drawing on interviews with drivers labor organizers and members of licensing commissions as well as case law and other published resources Hua and Ray argue that working for ride hail companies like Uber and Lyft shares similarities with driving for taxi companies in the impact on driver lives Lyft and Uber sell the idea of industry disruption but in fact they entrench long standing modes of extracting the reproductive labor of their drivers for the benefit of consumer lives Reproductive labor conventionally understood as feminized labor is extracted but masked behind the masculinized racialized bodies of drivers Professional driving is thus best understood alongside domestic and other gendered service work as reproductive labors devalued and often demonetized to benefit the national economy *Spent behind the Wheel* is a must for readers interested in critical studies of technological change and the gig economy showing how drivers capacities are drained for the benefit of riders corporations and the maintenance of the racial state     **Marconi's International Register** ,1995     *Florida Law Review* ,2017-05     *Minnesota Law Review* ,2016     **Resource Efficiency and Climate Change** United Nations Environment Programme. International Resource Panel, 2021-01-12 The International Resource Panel IRP was established to provide independent coherent and authoritative scientific assessments on the use of natural resources and

their environmental impacts over the full life cycle The Panel aims to contribute to a better understanding of how to decouple economic growth from environmental degradation while enhancing well being The Secretariat is hosted by the United Nations Environment Programme IRP assessments demonstrate the opportunities for governments businesses and wider society to work together to create and implement policies that ultimately lead to sustainable resource management including through better planning technological innovation and strategic incentives and investments Materials are vital to modern society but their production is an important source of greenhouse gases Emissions from material production are now comparable to those from agriculture forestry and land use change combined yet they have received much less attention from the climate policy community The IPR authors propose looking beyond energy efficiency to reduce global carbon footprint This report was developed by the IRP in response to a request from the Group of 7 It conducts a rigorous assessment of the contribution of material efficiency to GHG abatement strategies More concretely it assesses the potential reduction of GHG emissions from material efficiency strategies applied in residential buildings and light duty vehicles and reviews policies that address these strategies The IRP modelling results show that increasing material efficiency can help enhance efforts in moving towards the 1.5°C target set by the Paris Agreement Page 4 of cover
