Just follow these simple instructions to set up and begin using the D-460 Zoom. For more detailed instructions on feature use, please refer to the complete Owner's Manual included in your package.

First, take a moment to familiarize yourself with the key areas of camera operation by reviewing the illustrations below.

Get Ready...

Before you begin using the D-460 Zoom:

1. **Load two CR-123 battery packs in the compartment at the bottom of the camera as indicated by the diagram engraved on the camera body.**
For best results, Olympus America Inc. strongly recommends using two CR-123 lithium battery packs in your "AA" sized rechargeable battery system. Four "AA" NiMH or NiCd alkaline (NIMH) batteries may also be used. Do not use manganese batteries. An optional Olympus AC adapter (C-143) is available and is recommended when downloading images to ensure a consistent power supply voltage.
2. **Insert the SmartMedia™ card.** With the camera facing you, open the small door to the left of the lens barrel and slide the card into the slot.
This card is your "film." It stores your images for reviewing, downloading, and printing. To insert, simply slide the card with the gold contacts facing the back of the camera into the slot and close the cover. To remove, gently pull the card out of the slot.
3. **Turn on the power.**
Slide open the lens barrel on the front of the camera until you feel a click. Icons representing camera default settings appear on the camera control panel, along with the number of pictures available at the present memory settings. The lens barrel automatically extends.

To turn the camera off, slide the lens barrel halfway closed. The lens barrel retracts. Close the lens barrel completely.

Get Set...

Now perform the D-460 Zoom's initial setup. These are the default camera settings that will affect every picture you take.

Note: These settings may be changed at any time.

1. **Close the lens barrel and press the LCD monitor ON/OFF button** **to turn the camera and the LCD monitor on.**
2. **Press the Menu button** **to select the items you want to adjust.**
The button is located next to the LCD monitor. Once you've selected the item, use the up and down keys to scroll through your choices and make your adjustments from the following modes:

SLIDE SHOW MODE
To run through all the stored pictures automatically.

FILE NUMBER DISPLAY
To display the Frame number or File name.

CARD SETUP

ALL FRAME ERASE

Enter the year, month and day.
