contemporary reporting to be the voice for American parents she wishes she'd had a decade ago. The truth is that parenting cannot follow a recipe: there's no foolproof set of rules that will result in a perfectly adjusted child. Every parent has different values and we will have different ideas about how to pass those values along to our children. What successful parenting has in common regardless of culture or community is close observation of the kind of unique humans our children are. In thoughtful and revelatory chapters about pregnancy, identity, work, social media and the crisis of the Covid 19 pandemic, Grose explains how we got to this moment, why the current state of expectations on mothers is wholly unsustainable and how we can move towards something better.
