4 **Emplaced Resistance in Palestine and Israel** Marion Lecoquierre, 2021-11-18 The Israeli Palestinian conflict gravitates constantly around the question of territorial control due to the settler colonial principle present at the core of the Zionist project Acknowledging space as a central tool of domination used by the Israeli authorities this volume sheds light on the way space can become both a resource for and an outcome of protest with an emphasis placed on the way it is used and produced through practices of resistance by subaltern groups The research relies on a comparative approach relying on data collected in the course of fieldwork conducted between 2012 and 2015 in Palestine and Israel It focuses on three sites of contention which include the H2 area in Hebron the occupied Old City under Israeli authority the core neighbourhoods of Silwan Wadi Hilwe and al Bustan and the unrecognized Bedouin village of al Araqib in the Negev desert Through these three case studies the book tackles different strategies that engage with the materiality of space place sense of place territory landscape network and scale showing the mobilization of a real spatial repertoire of contention The different regimes of control give rise to strategies that are first and foremost emplaced i.e. rooted in the local Providing an original comparison

between flashpoints of the Palestinian resistance against the Israeli politics of dispossession and expulsion the book is a key resource for scholars and readers interested in political geography political science sociology and the Israel Palestine conflict
