Comparative Perspectives on Gender

Equality in Japan and Norway Masako Ishii-Kuntz,Guro Korsnes Kristensen,Priscilla Ringrose,2021-11-28 This book compares perspectives on gender equality in Norway and Japan focusing on family education media and sexuality and reproduction as seen through a gendered lens What can we learn from a comparison between two countries that stand in significant contrast to each other with respect to gender equality Norway and Japan differ in terms of historical cultural and socioeconomic backgrounds Most importantly Japan lags far behind Norway when it comes to the World Economic Forum's Gender Gap Report Rather than taking a narrow approach that takes as its starting point the assumption that Norway has so much more to offer in terms of gender equality the authors attempt to show that a comparative perspective of two countries in the West and East can be mutually beneficial to both contexts in the advancement of gender equality The interdisciplinary team of researchers contributing to this book cover a range of contemporary topics in gender equality including fatherhood and masculinity teaching and learning in gender studies education cultural depictions of gender trans experiences and feminism This unique collection is suitable for researchers and students of gender studies sociology anthropology Japan studies and European studies

attractive a host destination can be for immigrants not just in economic but also in social political linguistic and cultural terms should be raised Considering in detail the situation in Japan and Germany Japan where there are hardly any convenience stores without foreign employees Germany where retirement homes would no longer function without foreign nursing staff the book analyses migration to these two countries in different aspects such as education training and labour market participation and policies and actions on the part of the state and policymakers in rendering moving to and living in these countries worthwhile Bringing together leading scholars active in diverse aspects of migration in Japan and Germany this book will be a valuable resource to students and scholars with an interest in immigration issues in these two countries specifically and Europe and Asia more broadly **Creating Social Cohesion in an Interdependent World** Tetsuo Mizukami, 2016-04-08 Creating Social Cohesion in an Interdependent World examines the ways in which two very different societies Australia and Japan have dealt with challenges to their cultural and institutional fabric as well as the social cohesion arising from the acceleration of global interdependence during recent decades Deepening globalization has generated great social dislocation and uncertainty about collective identity and to anxiety about how to accommodate apparently unstoppable external influences The studies in this volume explore areas which have experienced significant impact from globalization including immigration policy ethnic and racial intermarriage attitudes towards ethnic and racial minorities national and cultural identity education policy and labor relations The approach used is innovative in juxtaposing two societies which although developed are contrasting in their historical origins and contemporary cultural legacies *Asian Studies* ,2013
