Unlock the power of Apple Watch The Apple Watch has of course been around for years and seen several updates It s the latest updates however that have truly made the newest watches stand out From always on displays to GPS navigation Apple Watch has become more than a companion gadget to the iPhone it s become a stand alone device that is hard to live without In addition to all the great features Apple Watch has always had Series 4 introduced a slimmer body yet with a screen that is somehow bigger has optional cellular for

making phone calls and streaming music without your phone and drop detection so if you fall and can't get up the fire department is dispatched to your location. Everything about it was designed to motivate you to be more active. Series 5 has taken it a step further by adding one of the most asked for features: always on display.
