

Introduction to the Middle School: Content Knowledge Test and Suggestions for Using This Study Guide

Introduction to the Middle School: Content Knowledge Test

The *Praxis*™ Middle School: Content Knowledge test assesses test takers' understanding of the essential knowledge required for a beginning teacher at the middle school level. The Middle School: Content Knowledge test covers all four content areas. In developing assessment material for these tests, ETS works in collaboration with teacher educators, higher education content specialists, and accomplished practicing teachers to keep the tests updated and representative of current standards.

The Middle School: Content Knowledge test (00446) consists of 120 multiple-choice questions and covers 4 major areas in the following proportions:

Content Category	Approximate Number of Questions	Approximate Percentage of Total Score
• Literature and Language Studies	30	25%
• Mathematics	30	25%
• History/Social Studies	30	25%
• Science	30	25%

Test takers have 120 minutes to complete the test. A four-function or scientific calculator is permitted.

Suggestions for using the “Study Topics” chapter of this study guide

This test is different from a final exam or other exam you may have taken for other courses because it is comprehensive—that is, it covers material you may have learned in courses taken during your undergraduate or graduate program. It requires you to synthesize information you have learned from many sources and to understand the subject as a whole.

Therefore, you should review and prepare for the test rather than merely become familiar with the question formats. A thorough review of the material covered by the test will significantly increase your likelihood of success. Moreover, studying for your licensing exam is a great opportunity to reflect on and develop a deeper understanding of pedagogical knowledge and methods before you begin to teach, or to reflect on previous teaching experience. As you prepare to take the test, it may be particularly helpful for you to think about how you would apply the study topics and sample questions to the classroom experience you obtained during your teacher preparation program. Your student-teaching experience will be especially relevant to your thinking about the materials in the study guide.
