Peer Pedagogies on Digital Platforms

Michael Dezuanni,2020-09-22 How a popular entertainment genre on YouTube Let s Play videos created by Minecraft players offers opportunities for children to learn from their peers Every day millions of children around the world watch video gameplay on YouTube in the form of a popular entertainment genre known as Let s Play videos These videos which present a

player's gameplay and commentary offer children opportunities for interaction and learning not available in traditional television viewing or solo video gameplay. In this book Michael Dezuanni examines why Let's Play videos are so appealing to children, looking in particular at videos of Minecraft gameplay. He finds that a significant aspect of the popularity of these videos is the opportunity for knowledge and skill exchange. Focusing on Let's Play practices, the videos themselves and fans' responses, Dezuanni argues that learning takes place through what he terms peer pedagogy, a type of nonhierarchical learning that is grounded in the personal relationships fans and players feel toward one another. Moreover, the Let's Play platform is part of a larger digital ecosystem that enables children to learn from one another in unique ways. Dezuanni explores how Let's Players enable learning opportunities, examining digital literacies, the Let's Play genre and peer pedagogies. He then presents case studies of three successful family friendly Let's Players of Minecraft, StampyLonghead, StacyPlays and KarinaOMG, microcelebrities in a microindustry. Dezuanni analyzes the specific practices and characteristics of these players, paying particular attention to how they create opportunities for peer pedagogies to emerge. **Game Development 2042** Tim Fields, 2022-10-14 This book is a fast-paced look at the next two decades of the games industry with a focus on game design, the evolution of gaming markets around the world, the future of technology, Artificial Intelligence, Big Data, cryptocurrency and the art and business of creating and publishing hit games.
