Open Vision Study Psychic Phenomena:

The Open Vision Horatio Willis Dresser, *The Open Vision* Horatio W. Dresser,2015-06-04 Excerpt from The Open Vision A Study of Psychic Phenomena Interest in psychical phenomena has travelled very far since the days of the first crude manifestations which led to modern spiritism The era of mere manifestations gave place to that of books purporting to tell us about the spirit world and the wisdom of life on the other plane and that in turn led to the day of psychical research with its long and patient investigations The great war brought us to another period There was not only greater desire than ever to gain new light if possible on the nature of death and the life beyond but from the soldiers themselves on the battlefield there came evidences of psychical visions and guidances To meet the new interest books of many types have been issued so that psychical experience has become one of the great subjects of the day in the world of books So many messages and teachings have apparently come over the great border that none of us has time to read them all What next If we assume that the whole subject has passed out of its preliminary stage and that we have assured results at last what use can we make of these results About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com

The Open Vision Horatio W. Dresser,2014-01-14 The Open Vision by Dr Horatio W Dresser is a book about relations with the dead It is also a book about the life of God in the human spirit Its art lies in the combination of these elements The occupancy of the human soul by the divine spirit is the highest conception of the highest religions a conception that may almost be said to attain the grandeur of the superhuman without falling into the cheapness of the miraculous Spiritism rests on a far lower plane Communication with the dead merely as the dead is neither high nor low it is neutral with the same neutrality that attaches to communication with the living But historically the instrumentalities human and mechanical which have furthered the alleged communication have been sordid Dr Dresser's object is to clear spiritism of its dross and to raise it to a level where it can act on equal terms and in close conjunction with the life in God Accordingly he throws away the mediums and what we may call for brevity the media He has no interest in tables no faith in experiments In his scheme for exchanges between the two worlds spirit is to act upon spirit without the intervention of a medium and mind is to influence mind without the intervention of the senses
