## Act Practice Lyft Update:

A New American Labor Movement William E. Scheuerman,2021-10-01 The American labor movement isn't dead. It's just moving from the bargaining table to the streets. In *A New American Labor Movement* William Scheuerman analyzes how the decline of unions and the emergence of these new direct action movements are reshaping the American labor movement. Tens of thousands of exploited workers from farm laborers and gig drivers to freelance artists and restaurant workers have taken to the streets in a collective attempt to attain a living wage and decent working conditions with or without the help of unions. This new worker militancy expressed through mass demonstrations, strikes, sit-ins, political action, and similar activities has already achieved much success and offers models for workers to exercise their power in the twenty-first century. Finally, Scheuerman notes many of the strategies of the new direct action groups share features with the sectoral bargaining model that dominates the European labor movement, suggesting that sectoral bargaining may become the foundation of a new American labor movement.

Early Stage Valuation Antonella Puca,2020-06-30 Addresses significant developments in the valuation of early stage enterprises at fair value with emphasis on practical applications. Features a broad selection of case studies of early stage valuation. *Early Stage Valuation: A Fair Value Perspective* provides a comprehensive review of the current methodologies used to value Early Stage Enterprises (ESEs) at fair value for financial reporting, investment and mergers and acquisitions. Author Antonella Puca, Senior Director with Alvarez Marsal Valuation Services in New York, provides accurate up-to-date information on recent guidelines and new approaches for valuation assessments. This authoritative guide examines how to apply market analysis, discounted cash flows models, statistical techniques such as option pricing models (OPM) and Monte Carlo simulation, the venture capital method and non-GAAP metrics to ESE valuation. The text considers the most recent AICPA Appraisal Foundation and IPEV guidance and examines developments in both academic research and venture capital investor practice. Numerous real world case studies illustrate early stage valuation suitable for structuring sound, internally consistent business transactions. Covering current trends and the latest regulatory guidance in the area, this book provides step-by-step guidance on practical valuation applications. Reflects current standards for ESE valuation, including the AICPA Guide to the Valuation of Portfolio Company Investments, the IPEV guidelines and guidance from the Appraisal Foundation. Covers new approaches to the valuation of ESEs with option pricing models, Monte Carlo Simulation, calibration and non-GAAP metrics. Offers an overview of start-up valuation. Discusses how intangible assets are impacting the valuation of ESEs. The book also includes contributions from Neil Beaton, Andreas Dal Santo, Alexander Davie, John Jackman and Mark Zyla. *Early Stage Valuation: A Fair Value Perspective* is an essential resource for valuation specialists, private equity and venture capital fund managers, analysts, attorneys, investment bankers, regulators and auditors, and investors with interest in the private equity and venture capital industry.

**Resource Efficiency and Climate Change**  
United Nations Environment Programme. International Resource Panel,2021-01-12 The International Resource Panel (IRP)

was established to provide independent coherent and authoritative scientific assessments on the use of natural resources and their environmental impacts over the full life cycle. The Panel aims to contribute to a better understanding of how to decouple economic growth from environmental degradation while enhancing well being. The Secretariat is hosted by the United Nations Environment Programme. IRP assessments demonstrate the opportunities for governments, businesses and wider society to work together to create and implement policies that ultimately lead to sustainable resource management including through better planning, technological innovation and strategic incentives and investments. Materials are vital to modern society but their production is an important source of greenhouse gases. Emissions from material production are now comparable to those from agriculture, forestry and land use change combined yet they have received much less attention from the climate policy community. The IPR authors propose looking beyond energy efficiency to reduce global carbon footprint. This report was developed by the IRP in response to a request from the Group of 7. It conducts a rigorous assessment of the contribution of material efficiency to GHG abatement strategies. More concretely it assesses the potential reduction of GHG emissions from material efficiency strategies applied in residential buildings and light duty vehicles and reviews policies that address these strategies. The IRP modelling results show that increasing material efficiency can help enhance efforts in moving towards the 1.5°C target set by the Paris Agreement. Page 4 of cover

### **Disability and Vocational Rehabilitation in Rural Settings**

Debra A. Harley, Noel A. Ysasi, Malachy L. Bishop, Allison R. Fleming, 2017-11-03. This first of its kind textbook surveys rehabilitation and vocational programs aiding persons with disabilities in remote and developing areas in the U.S. and abroad. Contributors discuss longstanding challenges to these communities most notably economic and environmental obstacles and ongoing barriers to service delivery as well as their resilience and strengths. Intersections of health, social, structural and access disparities are shown affecting rural disabled populations such as women, racial and sexual minorities, youth and elders. In terms of responses a comprehensive array of healthcare and health policy solutions and recommendations is critiqued with regard to health, employment and service effectiveness outcomes. Included among the topics: Healthcare initiatives, strategies and challenges for people with disabilities in rural, frontier and territory settings; Challenges faced by veterans residing in rural communities; The Asia and Pacific region rural urban impact on disability; Challenges after natural disaster for rural residents with disabilities; Meeting the needs of rural adults with mental illness and dual diagnoses; Capacity building in rural communities through community based collaborative partnerships. **Disability and Vocational Rehabilitation in Rural Settings** makes a worthy textbook for graduate students and upper level undergraduates in the fields of social work, community and environmental psychology, public health, sociology, education and geography. Its professional audience also includes vocational rehabilitation counselors serving these dynamic populations.
