What Online and Offline Effects did the #BlackLivesMatter Hashtag have?** Evelyn Isaak,2023-09-08 Seminar paper from the year 2023 in the subject Communications Public Relations Advertising Marketing Social Media grade 1 0 language English abstract This paper explores the impact of social media especially Instagram and Twitter on the discourse surrounding the BLM movement The focus will mainly be on the framing of the crisis of racial inequality in the United States Main questions are Can the

movement be seen as resulting out of a crisis and why is the BlackLivesMatter hashtag still important What online and offline effects did the BlackLivesMatter hashtag have Through an examination of how social media has been used to frame the crisis this paper tries to explain the ways in which this new media has been used to mobilize support build community and challenge the status quo The United States of America has long grappled with systemic racial inequality and social injustice particularly towards black Americans The racial inequality began many years ago and continues until this day Despite historic efforts towards achieving civil rights the plight of black people in America has continued to be a contentious issue with police brutality and discriminatory policies remaining persistent problems In recent years the Black Lives Matter BLM movement has emerged as a powerful force for change driven largely by the use of social media platforms to bring awareness to the issue of systemic racism and its impact on Black lives

demonstrates how critical thinking can enhance the benefits of social media while giving users the skills to guard against its dangers Social media has more than two billion users and continues to grow Its widespread appeal as a means of staying in touch with friends and keeping up with daily news masks some serious pitfalls misinformation pseudoscience fraud propaganda and irrational beliefs for example presented in an attractive easy to share form This book will teach you how to resist the psychological and behavioral manipulation of social media and avoid the mistakes that millions have already made and now regret Harrison presents scientific studies that show why your subconscious mind loves social media and how that can work against your ability to critically evaluate information Among other things social media reinforces your biases clouds your judgment with images that leave a false impression and fills your brain with anecdotes that become cheap substitutes for objective data The very nature of the technology keeps you in a bubble by tracking your preferences it sends only filtered newsfeeds so that you rarely see anything that might challenge your set notions Harrison explores the implications of having digital friends and the effects on mood self esteem and the cultivation of friendship in the real world He discusses how social media affects attention spans and the ability to consider issues in depth And he suggests ways to protect yourself against privacy invasion cyberstalking biased misinformation catfishing trolls misuse of photos and the confusion over fake news versus credible journalism
