Reengineering the Sharing Economy Babak Heydari, Ozlem Ergun, Rashmi Dyal-Chand, Yakov Bart, 2023-04-06 The current sharing economy suffers from system wide deficiencies even as it produces distinctive benefits and advantages for some participants. The first generation of sharing markets has left us to question: Will there be any workers in the sharing economy? Can we know enough about these technologies to regulate them? Is there any way to avoid the monopolization of assets information and wealth? Using convergent transdisciplinary perspectives this volume examines the challenge of reengineering a sharing economy that is more equitable, democratic, sustainable and just. The volume enhances the reader's capacity for integrating applicable findings and theories in business law and social science into ethical engineering design and practice. At the same time the book helps explain how technological innovations in the sharing economy create value for different stakeholders and how they impact society at large. Reengineering the Sharing Economy is also available as Open Access on Cambridge Core.

The New English Thomas Laurence Kington-Oliphant, 1886 **Super Pumped** Mike Isaac, 2019-09-03 Now a SHOWTIME original series starring Emmy winners Joseph Gordon-Levitt and Kyle Chandler and Academy Award nominee Uma Thurman. Now streaming Only on SHOWTIME. Named one of the best books of the year by NPR, Fortune, Bloomberg, Sunday Times, A New York Times Book Review Editor's Choice. If you want to understand modern-day Silicon Valley, you need to read this book. John Carreyrou, New York Times best selling author of Bad Blood. Hailed as the definitive book on Uber and Silicon Valley, Super Pumped is an epic story of ambition and deception, obscene wealth and bad behavior that explores how blistering technological and financial innovation culminated in one of the most catastrophic twelve month periods in American corporate history. Backed by billions in venture capital dollars and led by a brash and ambitious founder, Uber promised to revolutionize the way we move people and goods through the world. What followed would become a corporate cautionary tale about the perils of startup culture and a vivid example of how blind worship of startup founders can go wildly wrong.

"The" New Shakspere Society New Shakspere Society, 1880 **Beyond Market Dystopia: New Ways of Living** Greg Albo, Leo Panitch, 2019-12-23 Essays which aim to create a world of agency and justice. How can we build a future with better health and homes respecting people and the environment? The 2020 edition of the Socialist Register, Beyond Market Dystopia, contains a wealth of incisive essays that entice readers to do just that: to wake up to the cynical, implicitly market-driven concept of human society we have come to accept as everyday reality. Intellectuals and activists such as Michelle Chin, Nancy Fraser, Arun Gupta and Jeremy Brecher connect with and go beyond classical socialist themes to combine an analysis of how we are living now with visions and plans for new strategic, programmatic, manifesto-oriented alternative ways of living.

Uberland Alex Rosenblat,2018-10-23 Silicon Valley technology is transforming the way we work and Uber is leading the charge An American startup that promised to deliver entrepreneurship for the masses through its technology Uber instead built a new template for employment using algorithms and Internet platforms Upending our understanding of work in the digital age Uberland paints a future where any of us might be managed by a faceless boss The neutral language of technology masks the powerful influence algorithms have across the New Economy Uberland chronicles the stories of drivers in more than twenty five cities in the United States and Canada over four years shedding light on their working conditions and providing a window into how they feel behind the wheel The book also explores Uber's outsized influence around the world the billion dollar company is now influencing everything from debates about sexual harassment and transportation regulations to racial equality campaigns and labor rights initiatives Based on award winning technology ethnographer Alex Rosenblat's firsthand experience of riding over 5 000 miles with Uber drivers daily visits to online forums and face to face discussions with senior Uber employees Uberland goes beyond the headlines to reveal the complicated politics of popular technologies that are manipulating both workers and consumers

Spent behind the

Wheel Julietta Hua,Kasturi Ray,2021-12-21 Exploring professional passenger driving and the gig economy through feminist theories of labor Are taxi drivers in today's era of the ride hail app performing care work akin to domestic and household labor So argue the authors of Spent behind the Wheel Bringing together sociological and legal perspectives with feminist theoretical insights Julietta Hua and Kasturi Ray examine the case study of contemporary professional passenger driving in the United States On the one hand they show the rise of the gig economy has brought new attention to the industry of professional passenger driving On the other hand the vulnerabilities that professional drivers experience remain hidden Drawing on interviews with drivers labor organizers and members of licensing commissions as well as case law and other published resources Hua and Ray argue that working for ride hail companies like Uber and Lyft shares similarities with driving for taxi companies in the impact on driver lives Lyft and Uber sell the idea of industry disruption but in fact they entrench long standing modes of extracting the reproductive labor of their drivers for the benefit of consumer lives

Reproductive labor conventionally understood as feminized labor is extracted but masked behind the masculinized racialized bodies of drivers Professional driving is thus best understood alongside domestic and other gendered service work as reproductive labors devalued and often demonetized to benefit the national economy Spent behind the Wheel is a must for readers interested in critical studies of technological change and the gig economy showing how drivers' capacities are drained for the benefit of riders corporations and the maintenance of the racial state

the collection of J. Bosworth, ed. and enlarged by T.N. Toller Joseph Bosworth, 1882 **Genesis A** Alger Nicolaus Doane, 1978 Among Old English poems Genesis A is second both in length and importance only to Beowulf. With this new edition Alger N Doane reveals both the full stature of the poem and the significant achievement of the poet. Indeed Doane's creative and scrupulous work calls for both a rereading and a reassessment of Genesis A among all scholars in the field. In the editing of the text and the commentary the heart of the work Doane brings his full learning to bear in the service of illuminating the poem. His detailed commentary touches upon all the points of interest of the poem and places it in context both historically and aesthetically among other works of Old English and Germanic poetry showing both its limits and achievements
