of extraction relative to cost effective sources such as solar and wind Traditional energy sources are being phased out and our nation has come to a fork in the road uphold the status quo and allow our energy supply to be disrupted or adapt and advance to a state of total energy independence The Energy Disruption Triangle explores the state of U S energy from source to consumer and provides insight into the three sectors that are changing the world

Rethinking America's Highways
Robert W. Poole, 2018-08-03 A transportation expert makes a provocative case for changing the nation's approach to highways offering bold innovative thinking on infrastructure Rick Geddes Cornell University Americans spend hours every day sitting in traffic And the roads they idle on are often rough and potholed with exits tunnels guardrails and bridges in terrible disrepair According to transportation expert Robert Poole this congestion and deterioration are outcomes of the way America manages its highways Our twentieth century model overly politicizes highway investment decisions short changing maintenance and often investing in projects whose costs exceed their benefits In Rethinking America's Highways Poole examines how our current model of state owned highways came about and why it is failing to satisfy its customers He argues for a new model that treats highways themselves as public utilities like electricity telephones and water supply If highways were provided commercially Poole argues people would pay for highways based on how much they used and the companies would issue revenue bonds to invest in facilities people were willing to pay for Arguing for highway investments to be motivated by economic rather than political factors this book makes a carefully reasoned and well documented case for a new approach to highways
