#### **Redundancy at information and data level** Niklas Haug,2024-08-02 Research Paper undergraduate from the year 2024 in the subject

Computer Science General grade 1 0 language English abstract Almost any system used in daily life relies on transmitting data Whether it's sending a message to a friend transferring money to a bank account or streaming a movie on Netflix data is being transmitted from one point to another However data transmission is not always error free Errors from both humans and machines are quite common and can occur due to various reasons including Transposed digits e.g. when typing an IBAN or an amount of money into a banking app Noise in the communication channel Interference in wireless communications Hardware malfunctions or software bugs Although we cannot eliminate the occurrence of errors true to the motto Shit

happens we can implement measures to detect these errors and ideally correct them without having to retransmit the corrupted data a process known as Forward Error Correction FEC These measures range from simple methods such as checksums implemented in numbers used every day e g IBAN ISBN EAN to complex algorithms like Reed Solomon codes used in communication systems and storage devices For instance the ability to correct errors allows data on a CD which may be partly corrupted due to physical scratches to be reconstructed and ensures that QR codes remain scannable and decodable even when partially soiled or illegible

*Califailure* Steve Hilton, 2025-03-25 Steve Hilton tackles the literally burning question What will it take to save California California is a model for the nation Governor Gavin Newsom keeps telling us We're following a formula for success In *Califailure* Hilton compellingly captures exactly where this far left experiment has gone fundamentally catastrophically wrong Great cities like Los Angeles San Francisco and Oakland collapsed into squalor as crime and homelessness were allowed to explode The state that used to pride itself as the home of innovation and opportunity became the state with the worst rate of poverty highest unemployment and most hostile business climate in America as well as the highest taxes How did this happen and what is needed to turn things around Hilton identifies the nine key pathologies from Elitism to Cronyism to Narcissism that define the ideology at the heart of California's decline And he lays out a comprehensive program of policy reform CaliFuture that will restore the Golden State to its rightful place as the very best of America Californians are starting to wake up from the long and fitful nightmare In 2024 far left politicians were removed from leadership positions in San Francisco and Los Angeles Proposition 36 which in the words of its proponents makes crime illegal again passed overwhelmingly with majorities in every county *Califailure* is what happens when Democrats get everything they want Increasingly it's not what Californians want This book explains why America must reject it too
