*Social Commerce* Efraim Turban, Judy Strauss, Linda Lai, 2015-11-17 This is a multidisciplinary textbook on social commerce by leading authors of e commerce and e marketing textbooks with contributions by several industry experts. It is effectively the first true textbook on this topic and can be used in one of the following ways: Textbook for a standalone elective course at the undergraduate or graduate levels including MBA and executive MBA programs; Supplementary text in marketing management or Information Systems disciplines; Training courses in industry Support resources for researchers and practitioners in the fields of marketing management and information management. The book examines the latest trends in e commerce including social businesses, social networking, social collaboration, innovations and mobility. Individual chapters cover tools and platforms for social commerce, supporting theories and concepts, marketing communications, customer engagement and metrics, social shopping, social customer service and CRM contents, the social enterprise, innovative applications, strategy and performance management, and implementing social commerce systems. Each chapter also includes a real world example as an opening case, application cases and examples, exhibits, a chapter summary, review questions and end of chapter exercises. The book also includes a glossary and key terms, as well as supplementary materials that include PowerPoint lecture notes, an Instructor's Manual, a test bank and five online tutorials.

**Competing on Analytics** Thomas H. Davenport, Jeanne G. Harris, 2007-03-06 You have more information at hand about your business environment than ever before. But are you using it to out think your rivals? If not, you may be missing out on a potent competitive tool. In *Competing on Analytics: The New Science of Winning*, Thomas H. Davenport and Jeanne G. Harris argue that the frontier for using data to make decisions has shifted dramatically. Certain high performing enterprises are now building their competitive strategies around data driven insights that in turn generate impressive business results. Their secret weapon: Analytics, sophisticated quantitative and statistical analysis and predictive modeling. Exemplars of analytics are using new tools to identify their most profitable customers and offer them the right price to accelerate product innovation, to optimize supply chains and to identify the true drivers of financial performance. A wealth of examples from organizations as diverse as Amazon, Barclay's, Capital One, Harrah's, Procter & Gamble, Wachovia and the Boston Red Sox illuminate how to leverage the power of analytics.
