recent developments in the pass through of international to domestic petroleum product prices in the different fuel pricing  
regimes and in fuel subsidies in a range of emerging market and developing economies The main finding of the paper is the  
limited price pass through in many countries and the consequent increase in fuel subsidies The paper proposes that key  
elements of a successful strategy to contain subsidies should comprise making subsidies explicit making pricing mechanisms  
more robust combining reductions in subsidies with measures to protect the poorest using the resulting savings well and
