Media Ethics Clifford G. Christians, Mark Fackler, Kathy Brittain Richardson, Peggy Kreshel, 2016-10-04 Media Ethics Cases and Moral Reasoning challenges readers to think analytically about ethical situations in mass communication through original case studies and commentaries about real life media experiences This text provides a comprehensive introduction to the theoretical principles of ethical philosophies facilitating ethical awareness It introduces the Potter Box with its four dimensions of moral analysis to provide a framework for exploring the steps in moral reasoning and analyzing the cases Focusing on a wide spectrum of ethical issues faced by media practitioners the cases in this Tenth Edition include the most recent issues in journalism broadcasting advertising public relations and entertainment Visit the companion website at www.mediaethicsbook.com *Saving the News* Martha Minow, 2021 In *Saving the News* Martha Minow takes stock of the new media landscape She focuses on the extent to which our constitutional system is to blame for the current parlous state of affairs and on our government's responsibilities for alleviating the problem She further outlines an array of necessary reforms including a new fairness doctrine regulating digital platforms as public utilities using antitrust authority to regulate the media policing fraud and more robust funding of public media International Business Shad Morris, James Oldroyd, 2020-07-21 Leveraging their extensive background at multi national corporations co authors Shad Morris and James Oldroyd created an International Business course that is current concise and easy to implement As instructors themselves the authors focused on engaging pedagogy that prepares students for the global marketplace and created interactive resources to deepen the learning experience This second edition of International Business includes extensive updates including coverage on important topics like COVID 19 Brexit and the US China trade war Additionally the WileyPLUS course provides just in time resources like chapter introductory videos whiteboard animations cases case application problems adaptive practice and more to help students apply their learning and think critically **The Power of Platforms** Rasmus Kleis Nielsen, Sarah Anne Ganter, 2022 More people today get news via Facebook and Google than from any news organization in history and smaller platforms like Twitter serve news to more users than all but the biggest media companies In *The Power of Platforms* Rasmus Kleis Nielsen and Sarah Anne Ganter draw on original interviews and other qualitative evidence to analyze the platform power that a few technology companies have come to exercise in public life the reservations publishers have about platforms as well as the reasons why publishers often embrace them nonetheless Nielsen and Ganter trace how relations between publishers and platforms have evolved across the United States France Germany and the United Kingdom They identify the new distinct relational and generative forms of power that platforms exercise as people increasingly rely on them to find and access news Most of the news content we rely on is still produced by journalists working for news organizations but Nielsen and Ganter chronicle rapid change in the ways in which we discover news how it is distributed where decisions are made on what to display and what not and in who profits from these flows of information

By examining the different ways publishers have responded to these changes and how various platform companies have in turn handled the increasingly important and controversial role they play in society *The Power of Platforms* draws out the implications of a fundamental feature of the contemporary world that we all need to understand previously powerful and relatively independent institutions like the news media are increasingly in a position similar to that of ordinary individual users simultaneously empowered by and dependent upon a small number of centrally placed and powerful platforms
