**Promotion of business transfers in the Baltic Sea Region** Max Hogeforster, Christian Wildt, 2021-09-21 The ageing of society does not stop at company owners More and more companies have to be handed over to the new generation This process is a challenge for all parties involved The support of business transfer assistance is just as essential for the European economy as the promotion of start ups because both are critical to the development of the European economy Over 450 000 firms with over two million jobs are transferred to a new owner in the EU 28 each year Around one third of these transfers fail and the companies are closed The future growth and sustainability of innovative companies in the Baltic Sea Region are severely limited by failed business transfers Furthermore due to a lack of available and appropriate successors many firms are liquidated rather than transferred This publication is part of the project INBETS [www.inbets.eu](http://www.inbets.eu) highlights the background to the current situation of business transfers in the Baltic Sea Region and proposes a policy program to promote business successions and open up new target groups of potential successors Part financed by the
