Q&A

Board-Style Questions & Answers

You are working in the after hours clinic during a typical January evening. In the four hours you have been there you have seen 10 patients and you are about to go home for your night. You find that a 10-year-old boy is one of your father's patients who has been lost to follow-up. Your father has sent a certified letter to the last known address letting you know he has moved their family to a new health superintendent's office and that he has been contacted about the situation. You find the letter and immediately call the mother to see her. When she was going to meet the author and start pursuing the situation as a neglect case, the nurse informs you that the mother received the certified letter today and immediately made an appointment because she was furious she had received a letter and wanted to let someone know about it. You talk in the room, you note that the patient is a 10-year-old male named Samuel. As you enter the room, you find Samuel is sitting alone while the nurse is talking to the mother. You tell the mother that you are the new health superintendent and that you have been assigned to the after hours clinic. You obtain a history and physical history.

PRENATAL HISTORY: Prenatal history could be months, no tobacco or ETOH consumption.
NATAL HISTORY: Normal spontaneous vaginal
