Patterns Across Cultures:

Patterns Across Cultures Stuart Hirschberg, 2007 *Four Overarching Patterns of Culture* Robert Strauss, Christopher Strauss, 2019 Justice has been the dominant cultural framework of people in the West for two centuries ever since the rise of constitutional democracies Consciously or not most people in the West have a strong awareness of right and wrong Their sense of morality is generally rooted in an obligation to the rule of law In democratic societies the rule of law ultimately relies on constitutional documents ratified by a widely accepted process of development and implementation For millennia honor has been the dominant cultural framework of most people in the East and Middle East Here people know that speech and behavior display respect or disrespect While pervasive in all relationships honor and shame are most important in the family extended family and local community In the East honor is not necessarily an internal feeling as it is in a justice culture Honor is more often an external attribution bestowed by others rather than claimed by oneself Harmony is prevalent globally in indigenous cultures Many indigenous peoples do not distinguish between the supernatural and natural worlds All aspects of life are connected Interactions with spirit beings are the key to maintaining harmony in order to be secure Reciprocity is a common cultural framework in the Global South Here one learns to develop connections with the right people in given circumstances for needed resources These connections may or may not be characterized as friendships and provide not so much close friendships as reciprocal exchange In some places reciprocity is the means whereby one survives **Patterns of Culture** Ruth Benedict, 2005 Offers an analysis of three strongly contrasting primitive civilizations showing how behavior is influenced by custom and tradition *Management Across Cultures* Richard M. Stewart,Milton J. Bennett,2011-06-24 This classic study was originally written by Edward Stewart in 1972 and has become a seminal work in the field of intercultural relations In this edition Stewart and Milton J Bennett have greatly expanded the analysis of American cultural patterns by introducing new cross cultural comparisons and drawing on recent research on value systems perception psychology cultural anthropology and intercultural communication Beginning with a discussion of the issues relative to contact between people of different cultures the authors examine the nature of cultural assumptions and values as a framework for cross cultural analysis They then analyze the human perceptual process consider the influence of language on culture and discuss nonverbal behavior Central to the book is an analysis of American culture constructed along four dimensions form of activity form of social relations perceptions of the world and perception of the self American cultural traits are isolated out analyzed and compared with parallel characteristics of other cultures Finally the cultural dimensions of communication and their implications for cross cultural interaction are examined *In the Shadow of Organization* Robert B.
