

## Legend

	Full Block
	Stair
	Ladder
	Fence
	3 layers of Snow
	Slab
	Trapdoor
	Ground Blocks
	Carpet

### Slab Steps

Must have empty space in middle. Slabs can match palette of blocks. Only works in Bedrock or in Java 1.13 and earlier.

### Carpet on top of a bottom Slab

Lots of color combinations. Slabs to build. Easy to break by mistake.

### Trench

Can be made without any blocks. Very useful, very sneaky in the game. Can be very dangerous if you fall in and don't leave an easy way out, such as a ladder. Must run-jump to get across.

### Two High Wall with Ladder

Put ladder on top block. Put carpet on top to prevent mob squeeze. Can blend in with building block palette. Requires more resources. Slower to get over than other methods.

## With Jump Boost I - beacon or potion

Fence on Wall

Slab on top of a full block

Carpet on top of Fence or Wall. Slabs to build. Many color choices.

Trapdoor on top of Fence or Wall. Slabs to build. Colors can match fences.

### Carpet on top of Carpet

Easy to build and take down. Lots of color choices. Can be broken easily by mistake.

### Trapdoor on top of a bottom slab

Trapdoors can match other wood in your build. Slabs to build. Trapdoors can open by mistake which could allow mobs to pass.

Ha-Ha Trench - one way mob access. Holes can go across in one direction but not the other. Can be made without any blocks. Very useful, sneaky in game to keep farm animals contained without using resources. Can be dangerous if you fall in and can't jump out quickly. Must run-jump to get across.

### Snow in front of Fence or Wall

Three levels of snow will allow you to jump over a fence or a wall. Shouldn't be used where snow will melt.

## With Jump Boost II beacon or potion

Carpet on top of a two full block wall

Slab on top of two full blocks

## BARRIERS THAT YOU CAN GET OVER THAT MOST MOBS CAN'T

Are you tired of trying to open and then close a fence gate before a mob can get to you? Great way to keep animals from getting loose. Spiders will be able to get over these barriers. Plan accordingly!

If you have beacons in your area, using a Jump Boost can really expand the possibilities of getting over walls easily.

Try combining different solutions with regular walls, fences, or taller block sections to enhance a build.

Placing trapdoors on top of slabs in the correct orientation will allow you open two of them to allow mobs to get through when needed.
