In turn, such a need has a positive impact both on the company's well-being — in case of successful expansion — and on the quality of the market. Opening new branches and adapting a company's business strategies to the agenda of foreign markets requests the creation of new jobs and strengthening the R&D vector of companies, as well as bringing new taxes for the governments of the countries in which the business is introduced (Nieminen, 2019). Thus, the competent management of expansion brings excellent benefits to all stakeholders, which means that this phenomenon of the globalization era of civilization development turns out to be highly relevant and critical for the modern world.

This assignment examines the theoretical aspects and possibilities of expansion for Apple, a multinational company headquartered in California but with a strong presence in regions of the Middle East. **Applied Production and Operations Management** James Robert Evans, 1990 Have you ever wondered what your dog is thinking? Meet one funny dog, Enzo, the lovable mutt who tells this story. Enzo knows he is different from other dogs: most dogs love to chase cars, but Enzo longs to race them. He learns about racing and the world around him by watching TV and by listening to the words of his best friend, Denny, an up-and-coming race car driver and his daughter, Zo. His constant companion, Enzo, finds that life is just like being on the racetrack: it isn't simply about going fast. And applying the rules of racing to his world, Enzo takes on his family's challenges and emerges a hero. In the end, Enzo holds in his heart the dream that Denny will go on to be a racing champion with his daughter by his side. For theirs is an extraordinary friendship, one that reminds us all to celebrate the triumph of the human and canine spirit. This is a special adaptation for young people of the acclaimed *New York Times* bestselling adult novel, *The Art of Racing in the Rain*.
