Emmy Winners Price Customer Service:

Customer Service for Hospitality and Tourism Simon Hudson, Louise Hudson, 2012-11-02 Customer service is of critical importance for the tourism and hospitality sector now more than ever before as customers are looking to increase value for money and are less forgiving of mediocre service. However, despite its importance, quality customer service is the exception rather than the norm in many parts of the world. *Customer Service for Hospitality and Tourism* is a unique text and vital to both students and practitioners as it explains not only the theory behind the importance of customer service but also acts as a guidebook for those wishing to put this theory into practice. In essence, it is the whys and hows of customer service. It is easy to read, very current, and full of references to all the latest research from both academic and practitioner literature. Chapters cover important topics such as the financial and behavioural consequences of customer service, consumer trends influencing service developing and maintaining a service culture, managing service encounters, the importance of market research, building and maintaining customer relationships, providing customer service through the servicescape, the impact of technology on customer service, the importance of service recovery, and promoting customer service internally and externally. Key features include: An At Your Service Spotlight at the beginning of each chapter focuses on the achievements of successful individuals related to the art of customer service. Each chapter contains a Service Snapshot, short real life cases to illustrate a particular concept or theoretical principle presented in the chapter. Detailed international Case Studies which cover a variety of sectors, organizations, and regions designed to foster critical thinking; the cases illustrate actual business scenarios that stress several concepts found in the chapter. They analyze customer service in the U.S., South America, South Africa, Europe, Russia, Australia, China, Canada, Korea, and Dubai. *Customer Service in Tourism and Hospitality* Simon Hudson, Louise Hudson, 2017-09-30 A fully revised and updated new edition of this bestselling text. New material covers issues such as the sharing economy, technology, Virtual Reality, and use of robots, and use of big data to personalize experiences and encourage loyalty. **Billboard**, 1995-03-11 In its 114th year, Billboard remains the world's premier weekly music publication and a diverse digital events, brand content, and data licensing platform. Commons: Culture, Media and Sport Committee, 2007-01-25 Call TV quiz shows are an example of television programmes provided by commercial broadcasters in order to increase their revenue. The viewer watches the live broadcast then sends a text message or makes a premium rate telephone call in order to take part with the broadcaster keeping a proportion of the call revenue. The Culture Committee has decided to examine this development and whether some form of regulation is required since the programmes seem to be another means of gambling with some members of the public complaining about them. This report therefore has set out a number of recommendations as to how broadcasters and regulators should address this. The Committee states that there seems to be a lack of fairness and transparency throughout the process. For example, players are generally not told that it is a matter of luck whether a call is connected to the studio and that the chances of getting through are very slim. Also, the cost of calling is not always made as clear as it might be or the amount players might have to spend to win a prize. Primary responsibility for maintaining confidence in the Call TV quiz show format rests with the operating companies and the broadcasters. The Committee believes that the guidance drawn up by the two main regulators, Ofcom and ICSTIS, does not go far enough. The Committee also states that Call TV quiz shows should constitute gaming under the Gambling Act 2005 and the Culture Department and the Gambling Commission should consider this as a matter of urgency. Operators should have voluntarily introduced practices intended to help viewers who make repeated premium rate calls appreciate how much they are spending. Also, some assessment of the addiction to participation in such shows should be undertaken. Viewers should be made aware that puzzles on Call TV quiz shows have a cryptic element and that Ofcom should make it obligatory to have games verified with a third party and solutions lodged with them to prevent underhand changes being made while the show is on air. Ofcom should also publish periodic reports on its monitoring of Call TV quiz programmes. Any practice of misleading viewers about call volumes or of blocking of calls would be unfair and fraudulent and should be punished under criminal law. The Committee recommends that broadcasters should be required to display some recent historical information about volume of incoming calls and the odds of being connected to the studio. Also, that a single body, Ofcom, take responsibility for registering all complaints.
