Canon Francis W. Galpin,1965 *Old English Instruments of Music, Vol. 1* Francis W. Galpin,2015-06-15 Excerpt from Old English Instruments of Music Vol 1 Their History and Character When the General Editor asked me to contribute a volume on Musical Instruments to the series of The Antiquary's Books I found myself confronted by two great difficulties there was first of all the vast extent of the subject of which mere portions have already called forth large and important works and then there was the question whether it would be possible to put in a popular form material which should also satisfy the inquiries of the student and archivist The latter requirement will explain the admission of much which might otherwise be thought unnecessary for instance to the ordinary reader it may seem a needless task to describe the compass pitch and tunings of these old world instruments and yet there are no details about which I have been so frequently asked especially by those who happen to possess musical relics and desire to hear once more the voices of the past Having a profound sympathy with such desire I hope they will find that although the introduction of the Staff Notation into the text has been avoided these interesting particulars can be easily ascertained by comparing the signs used with the key given in the Appendix About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at [www.forgottenbooks.com](http://www.forgottenbooks.com) This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works
