Outhouses By Famous Architects:

Outhouses by Famous Architects Steve Schaecher, 2000 Outhouses have been much ridiculed and maligned structures thought worthy of only the lowliest of humor and virtually ignored by architectural critics as inconsequential blips in the development of building design. And yet as architect Steve Schaecher so poignantly reveals in this collection of renderings architects of genius from time immemorial have used their considerable talents to enhance the beauty and function of the outhouse. His extensive research has uncovered a wealth of stunning outdoor bathroom designs that say much about the history of architecture. Although Schaecher's friends and family have worried about his obsession with bathroom drawings it is clear that with the publication of this tome his seat in the annals of architectural history will never be put down. Here are reproductions of stylish dare we say perfectionist renderings of Thronehenge Wright's Flushing Water the Odor Dame Cathedral the Taj Ma stall Jefferson's Johnnicello Sullivan's Merchants First National Outhouse Le Corbusier's Bidet Savoye Fuller's Geodesic Throne the Hancock's John Building the Centre Pompidoodoo the unmistakable outhouse for that weird looking French museum and many others. Each is accompanied by insightful historical and analytical text depending on your definitions of insightful and analytical. The preface by architectural critic I P Daley will leave you in no doubt of the importance of this completely nonsensical book

Phone Booths by Famous Architects Steve Schaecher, 2004

Following architect Steve Schaecher's groundbreaking *Outhouses by Famous Architects* and *Mobile Homes by Famous Architects* Pomegranate 2000 and 2002 we present his new array of historical inquiries. In deft ink and watercolor illustrations and knowledgeable prose Schaecher informs each of his twenty nine booths with the sensibility of the architect who supposedly designed it. Schaecher's books are not mere parodies. While he envisions humorous applications for the talents of Palladio Le Corbusier Wright and other giants his watercolors are true reflections of the architects styles e.g. Erik Gunnar Asplund's phone booth the Stockholm Dialibrary clearly exemplifies Asplund's design precepts and the concise text explores the Swede's architectural principles as well as the assertion that music by the Swedish 1970s supergroup Abba is piped into the Dialibrary to ease the pain of being on hold. Schaecher brings a generous sense of humor to analyses of building styles from classical Egypt through Renaissance mastery Enlightenment engineering and Modern uplift before arriving among the competing theories of today. His past performance has won accolades from the likes of Robert Venturi and *Phone Booths* keeps up the good work
