Meaning In The Media Discourse Controversy And Debate:

Meaning in the Media Alan Durant, 2014-05-14 Addresses the issue of what we should make of competing claims about meaning when debated in highly charged circumstances

Copyright and Piracy Lionel Bently, Jennifer Davis, Jane C. Ginsburg, 2010-10-28 An understanding of the changing nature of the law and practice of copyright infringement is a task too big for lawyers alone it requires additional inputs from economists historians technologists sociologists cultural theorists and criminologists Where is the boundary to be drawn between illegal imitation and legal inspiration Would the answer be different for creators artists and experts from different disciplines or fields How have concepts of copyright infringement altered over time and how do such changes relate if at all to the cultural norms operating amongst creators in different fields With such an approach one might perhaps begin to address the vital and overarching question of whether strong copyright laws rigorously enforced impede rather than promote creativity And what can be done to avoid any such adverse consequences while maintaining the effectiveness of copyright as an incentive mechanism for those who need it

Al Jazeera and the Global Media Landscape Tine Ustad Figenschou, 2013-10-15 This book analyzes how and why Al Jazeera English AJE became the channel of choice to understand the massive protests across the Arab world 2011 Aiming to explain the Al Jazeera moment it tracks the channel's bumpy road towards international recognition in a longitudinal in depth analysis of the channel's editorial profile and strategies Studying AJE from its launch in mid November 2006 to the Arab Spring it explains and problematizes the channel's ambitious editorial agenda and strategies examines the internal conflicts practical challenges and minor breakthroughs in its formative years The Al Jazeera phenomenon has received massive attention but it remains under researched The growth of transnational satellite television has transformed the global media landscape into a complex web of multi vocal multimedia and multi directional flows Based on a combination of policy production and content analysis of comprehensive empirical data the book offers an innovative perspective on the theorization of global news contra flows By problematizing the distinctive characteristics of AJE it examines the strategic motivation behind the channel and the ways in which its production processes and news profile are meant to be different from its Anglo American competitors These questions underscore a central nexus of the book the changing relationship between transnational satellite news and power

Word Meaning and Legal Interpretation Christopher Mark Hutton, 2017-09-09 This book introduces ideas about word meaning in the context of law It analyzes cases from common law jurisdictions that concern the meaning definition and legal status of individual words labels and categories The focus is on the question of how law assigns authority over word meaning in different circumstances and in different domains of law
