Media And Politics In A Globalizing World:

Media and Politics in a Globalizing World Alexa Robertson, 2015-03-17 Globalization and technological advances have had a dramatic impact on the relationship between media and politics. How can we understand the connection between the two in the present day? Alexa Robertson argues that we cannot understand the power of the one without taking the other into account. This exciting and accessible book provides fresh insight into our contemporary media landscape, adopting a truly comparative global approach. In *Media and Politics in a Globalizing World*, Robertson encourages the reader to explore the relationship from different perspectives: those of the politician, the journalist, the activist, and the ordinary citizen, and how the relationship between media and politics varies across cultures. Illustrated with contemporary examples throughout the book, it weighs up arguments for seeing new developments in terms of change or continuity, as empowering or debilitating, and as promoting or undermining democracy. Suitable for undergraduates and postgraduates studying politics, media, and sociology, it also will be of interest to the general reader wishing to understand the complex role of the media in political life the world over. Latin Politics, Global Media Elizabeth Fox, Silvio Waisbord, 2009-09-15 The globalization of media industries that began during the 1980s and 1990s occurred at the same time as the establishment of, or return to, democratic forms of government in many Latin American countries. In this volume of specially commissioned essays, thirteen well-known media experts examine how the intersection of globalization and democratization has transformed media systems and policies throughout Latin America. Following an extensive overview by editors Elizabeth Fox and Silvio Waisbord, the contributors investigate the interaction of local politics and global media in individual Latin American countries. Some of the issues they discuss include the privatization and liberalization of the media, the rise of media conglomerates, the impact of trade agreements on media industries, the role of the state, the mediaization of politics, the state of public television, and the role of domestic and global forces. The contributors address these topics with a variety of theoretical approaches, combining institutional, historical, economic, and legal perspectives.

Globalization and Media Policy NA, 2016-09-23 This book takes a fresh look at media and communications policy and provides a comprehensive account of issues that are central to the study of the field. It moves beyond the specifics of regulation by examining policy areas that have proved to be of common concern for societies across different socioeconomic realities. It also seeks to address profound gaps in the study of policy by demonstrating the centrality of historical, social, and political context in debates that may appear solely technical or economic. *Media Policy and Globalization* covers the institutional changes in the communications policy arena by examining the changing role of the state, technology, and the market, and the role of civil society. It discusses actual policy areas in broadcasting, telecommunications, and the information society, and examines the often overlooked normative dimensions of communications policy. Features: Provides a cross-disciplinary critical perspective of the politics of communications policy making in a global context. Explores

Globalization and Media Jack Lule,2011-11-15 This lively and accessible book argues for the central role of media in understanding globalization Indeed Jack Lule convincingly shows that globalization could not have occurred without media From earliest times humans have used media to explore settle and globalize their world In our day media have made the world progressively smaller as nations and cultures come into increasing contact Decades ago Marshall McLuhan prophesied that media technology would transform the world into a global village Slowly fitfully his vision is being fulfilled The global village however is not the blissful utopia that McLuhan predicted Nor in a more modern formulation is the world flat with playing fields leveled and opportunities for all Instead Lule argues globalization and media are combining to create a divided world of gated communities and ghettos borders and boundaries suffering and surfeit beauty and decay By breaking down the economic cultural and political impact of media and through a rich set of case studies from around the globe the author describes a global village of Babel invoking the biblical town punished for its vanity by seeing its citizens scattered its language confounded and its destiny shaped by strife
