Steve Manzuik, Ken Pfeil, Andrew Gold, 2006-12-02 This book will take readers from the discovery of vulnerabilities and the creation of the corresponding exploits through a complete security assessment all the way through deploying patches against these vulnerabilities to protect their networks. This is unique in that it details both the management and technical skill and tools required to develop an effective vulnerability management system. Business case studies and real-world vulnerabilities are used throughout the book. It starts by introducing the reader to the concepts of a vulnerability management system. Missional Theology in Context Buhle Mpofu, 2025-10-30 This book discusses Missional Theology from trans-disciplinary and diverse angles from which scholars unpack missional theologies which emerge out of their different contexts spanning from countries such as Thailand, South Korea, Taiwan, Netherlands, Switzerland, Uganda, South Africa, and Zimbabwe. This diversity of contexts and scholarly approaches underscore the notion of globality which is at the heart of subverting Empire explored through the intersecting themes of environmental justice, social and economic justice, addressing poverty, migration challenges, and dealing with all forms of discrimination such as gender and racism. Central to the approach of this book is the notion that subverting Empire requires an urgent and transformational shift from traditional approaches to creative and missional approaches grounded on human dignity and life affirming values as opposed to the death dealing effects of the current global architecture which thrives on exploitation of the poor and marginalized communities. **MCSA:**
