Besides the 3 O s of Outperforming cast your mind far and wide Try not to miss anything Once you have thought of all the possibilities make the guess again What is the most outsourced service on earth today If you guessed call centres I would have to say no In fact if you guessed any of the following services logistics IT sales training fleet management or payrolls all popular services to be outsourced I would not nod my head once The answer which lies somewhere in this chapter is going to be a surprise to you Whether your guess is correct or not there is a lot more to be explored You will come to recognise how ubiquitous outsourcing has become in the modern day commercial world and how to keep your eyes open to recognise situations that are amenable to outsourcing The full list of all outsourceable activities within a company may include an element of surprise You will also know the answer to the second part of the 483 billion question i e when you must NOT outsource In our work we frequently encounter people who are dogmatic about outsourcing on both sides of the fence We have worked closely with directors serving on boards of large organisations who are against outsourcing On the other hand we also talk to people at all levels in companies who would rather outsource than do the tasks internally We have come across situations where companies are reluctant to outsource and where that would have been the best course of action
