Computer Aided Drug Design in Industrial Research E.C. Herrmann,R. Franke,2013-03-09 The Ernst Schering Research Foundation sponsored its 15th workshop in Berlin on October 19 21 1994 Leading scientists from Europe and North America were invited to discuss computer aided drug design in industrial research Computer aided drug design is a very exciting field and an intellectual challenge like playing chess But these reasons are no longer sufficient to justify using this method in industry if they ever were Fig 1 The participants of the workshop VI Preface Therefore when we together with Prof Hoyer started to think about this workshop our intentions quickly became clear We were not so much interested in the very latest developments of methods or in computer aided drug design itself enough conferences have dealt with these topics However we were very interested in the usefulness and limitations of computer aided drug design in the industrial research process A lot has changed in the pharmaceutical industry recently These changes are gaining momentum so it is the right time to think about the role of computer aided drug design in this changing environment
