Fluorinated Coatings and Finishes Handbook Laurence W.

McKeen,2015-10-11 Fluorinated Coatings and Finishes Handbook The Definitive User s Guide Second Edition addresses important frequently posed questions by end user design engineers coaters and coatings suppliers on fluorinated coatings and finishes thus enabling them to achieve superior product qualities and shorter product and process development times

The book provides broad coverage of these fluorinated polymer coatings including the best known PTFE polytetrafluoroethylene first trademarked as Teflon and ePTFE GoreTex Their inherent qualities of low surface tension non stick low friction high melting point and chemical inertness make fluoropolymer coatings widely desirable across thousands of industrial and consumer applications but these properties also make it difficult to convert fluoropolymers to coatings that have sufficient adhesion to the substrate to be protected In this book readers learn how fluoropolymer coatings are used and made about their pigments and fillers binders dispersion processes additives and solvents The book includes substrate preparation coating properties baking and curing processes performance tests applications and health and safety Provides a practical handbook that covers the theory and practice of fluorinated coatings including the structure and properties of binders and how to get a non stick coating to stick to the substrate Covers liquid and powder fluorocoatings their applications methods curing and baking processes and their commercial end uses Presents detailed discussions of testing methods related to fluorocoatings common coating defects how they form how to eliminate them and the health and safety aspects of using and applying fluorocoatings Includes substrate preparation coating properties baking and curing processes performance tests applications and health and safety
