*New Directions in Two-Year College Mathematics* Donald J. Albers, Stephen B. Rodi, Ann E. Watkins, 2012-12-06 by Donald J Albers ix INTRODUCTION In July of 1984 the first national conference on mathematics education in two year colleges was held at Menlo College The conference was funded by the Alfred P Sloan Foundation Two year colleges account for more than one third of all undergraduate enrollments in mathematics and more than one half of all college freshmen are enrolled in two year colleges These two facts alone suggest the importance of mathematics education in two year colleges particularly to secondary schools four year colleges and universities For a variety of reasons four year colleges and universities are relatively unaware of two year colleges Arthur Cohen who was a participant at the New Directions conference warns Four year colleges and universities ignore two year colleges at their own peril Ross Taylor another conference participant encouraged two year college faculty to be ever mindful of their main source of students secondary schools and to work hard to strengthen their ties with them There are many other reasons why it was important to examine two year college mathematics from a national perspective 1 Over the last quarter century no other sector of higher education has grown so rapidly as have two year colleges Their enrollments tripled in the 60 s doubled in the 70 s and continue to increase rapidly in the 80 s x 2 Twenty five years ago two year colleges accounted for only one seventh of all undergraduate mathematics enrollments today the fraction is more than one third

*Stand Alone, Inventor!* Robert G. Merrick, 1997 From the creator of four successful inventions each posting sales in the millions these step by step lessons and real life experiences will help aspiring inventors move ahead and succeed with a new product idea Beginning with the basics of what to invent how to test it cheaply to see if it will sell and how to protect and distribute it Stand Alone Inventor also offers guidelines on manufacturing and merchandising products from the ground up Advice on gaining store acceptance writing a press release and sales material and getting services for less than what the big guys pay make this book a valuable reference for anyone who wants to turn a simple idea into a million dollar seller
