

THE MURPHY'S LAW

Murphy's Law is a popular adage that states, "Anything that can go wrong will go wrong."

Coined by Edward A. Murphy, Jr., an American aerospace engineer, this law reflects the idea that if there is a possibility of something going awry, it is likely to happen.

It highlights the inevitability of unforeseen problems or errors in various situations.

While often used humorously, the concept underscores the importance of contingency planning and preparedness for unexpected events.
