Personhood and Music Learning Susan A. O'Neill, 2012-11-01 Personhood and Music Learning edited by Susan O'Neill is a scholarly but accessible exploration of personal action and experience across diverse music learning contexts. It offers interesting and challenging insights into persons making meaning and connections with music critical for understanding choices and decisions that impact people's lives. Perspectives and narratives by 25 authors from around the world focus on musicians, composers, and conductors, music teaching and learning with children and adolescents, music education research and professional practice. This book aims to recast theories of personhood in relation to music learning, reassert the person into multiple narratives, and restore the centrality of personhood to music education theory research and practice. Students and researchers internationally as well as music educators in all areas of professional practice will find in these pages thought-provoking ideas with profound implications for envisioning the future of music education.

Coppola, 2025 Scenes from the music video unravel quickly under a piano loop and an 808 drum groove. The figure raps from Jesus' center seat of a long table depicting DaVinci's The Last Supper. He

lies in a pile of cash as fawning women count it all around him Cloaked in white he stands among a sea of men dressed in black Sit down he repeatedly commands while he stubbornly stands Be humble The all caps title of Kendrick Lamar's hit song HUMBLE leaves no question that his song is or should be about humility Yet many would probably write it off as an audacious display of bravado instead His opening question wicked or weakness points precisely to this contradiction a socially constructed binary between arrogance and humility A Black man who projects strength resilience and pride is judged as arrogant wicked But to be humble is to be servile weak
