

A vintage green car with a white roof is driving on a winding road that curves along a cliff edge. The road is made of light-colored stone or concrete. The cliff face is covered in green vegetation. In the background, a vast, dark blue ocean stretches to the horizon under a clear sky.

Nothing Can Go Wrong:

"Thoughts for Each Step... Every Day" John Graham, 2011-06-10 Humanity must have food and drink each day in order to survive. Humanity must pause for a time of rest each day in order to maintain the strength to perform the task of the following day. Humanity must enter into some type of relationship with another person each day unless he began to feel isolated and inferior. Just as the physical and psychological aspects of man must have certain needs met each day so must the spirit of man. We may go with the flow for awhile but deep within the confines of humanity is the soul. And that soul must experience and enjoy a renewal. Such renewal is found in a daily relationship with the Creator of life. Man must pause from his daily routine and purposefully focus on the Word of God which in turn will enrich, encourage and enable him to face each circumstance and condition that a day's activities may confront him. The Bible declares they that wait upon the Lord shall renew their strength they shall mount up with wings as eagles they shall run and not be weary and they shall walk and not faint. *Isaiah 43:31 KJV* Within the pages of this daily devotional you will find strength, stability and satisfaction awaiting you each step of every day.

The Book of Wisdom Osho, 2023-07-09 Religion is not a science. Religion is not a science in the sense physics, mathematics and chemistry are sciences. But still it is a science because it is the ultimate knowing. The word science means knowing. And if religion is not a science what else can it be? It is the highest knowing, it is the purest knowing. Ordinary science is knowledge, not knowing; religion is knowing itself. Ordinary science is object oriented; it knows something, hence it is knowledge. Religion is not object oriented; it has no object; it knows nothing. Knowing knows itself as if the mirror is reflecting itself. It is utterly pure of all content. Hence religion is not knowledge but knowing.

The Science of Getting Rich, Great And Well Wallace D. Wattles, The purpose of the lessons in this book is to raise the mental and spiritual vibrations of the student to inspire hope, faith, courage to awaken larger thought within the mind, inspire greater plans and purposes and awaken the dormant energy in the life to fire the enthusiasm and call into active service hidden talent which the student possibly does not dream at his present stage of unfoldment he possesses. In short our purpose is to awaken men from mental slumber, show the unlimited resources in human nature, the unseen yet open doors to mental wealth first, then as a natural sequence to wealth in material conditions and thus enlarge and ennable the life as well as add to its material expressions. This edition includes all three of Wattles' masterworks: *The Science of Getting Rich*, *The Science of Being Great* and *The Science of Being Well*.

Stories and Anecdotes Jim Wright, 2023-11-10 This is a collection of stories, anecdotes and reminiscences written, collected and compiled over a long professional life. They amuse or provoke serious thought, aiming to make the reader laugh for a few moments and think for much longer. Most are in short essay form, some with a discursive introductory beginning leading to a serious or amusing ending, the real thrust of the story. Most are based on personal experience. The stories about bees are factual and based on a life long hobby of beekeeping. The last thoughtfully written section from a lifetime as a doctor is entirely serious, educational and thought provoking.
