Paper 1 Pure Mathematics 1

October/November 2022

1 hour 50 minutes

The coefficient of x^2 in the expansion of $\underbrace{\left(1 + \frac{2}{p}x\right)^5 + (1 + px)^6}$ is 70.

Find the possible values of the constant p .

$$\left(1 + \frac{2}{p}x\right)^5 = {}^5C_2 (1)^3 \left(\frac{2}{p}x\right)^2 = 10 \times \frac{4x^2}{p} \quad [6]$$
$$= \frac{40x^2}{p}$$

$$(1 + px)^6 = {}^6C_2 (1)^4 (px)^2 = 15p^2x^2$$

$$\therefore \frac{40x^2}{p} + 15p^2x^2$$

It's financed our wealth but that part of output on which our continued prosperity depends productivity growth is petering out. The traditional scapegoat has been the dearth of worker skills. But the worker skills base has never been higher. The other explanation is that it is managers who are not giving full value to their employers. The way they're making decisions is conferring virtually no upside potential which means they're leaving us wide open for experience poor competitors to step into our experience rich shoes. Exactly as Japan did in the 1960s and the so called BRICK countries Brazil Russia India China especially China and Korea are threatening now. If creeping uncompetitiveness is not to overtake us from where are the next round of productivity gains to come from? Identifying some gaping holes in the way managers are taught to manage this book outlines both the size of the problem and a solution. Businesses and other organizations the author says have to substantially raise the quality of their decision making. For this to happen they need to be much better experiential learners. And for experiential learning to take place companies and other institutions have to better manage their corporate DNA the institution specific experiences otherwise known as Organizational Memory OM which characterizes any organization s

ability to perform is the single biggest influence on decision making excellence It is a factor of production that has already been paid for at great expense yet is readily discarded in the backwash of the biggest change in workplace practice for more than a century the actively encouraged flexible labour market Corporate DNA explains why this key component of intellectual capital should be better managed can be better managed and particularly how it can be used to help organizations reduce the pandemic of repeated mistakes rei *APAIS, Australian Public Affairs Information Service* ,1989 Vol for 1963 includes section Current Australian serials a subject list *British Books* ,1965 *Australian Education Index* ,1988 Automation Progress ,1960 Outpost ,2006 Education Statistics , Vols for 1973 74 1974 75 include the annual report for 1972 73 1973 74 Whitaker's Books in Print ,1998 **The Education Index** ,1979 *The British Library General Catalogue of Printed Books 1976 to 1982* British Library,1983 ECMLG 2011 Proceedings of the 7th European Conference on Management Leadership and Governance Charles Despres,2011-06-10
