A world list of books in the English language. **The Populism Catalogue** Šiuolaikinio meno centras, 2005. Despite its exploration of the connection between political rhetoric and artistic expression, the project does not aim to illustrate its theme through populist art. Instead, the artists in the exhibitions deal with populist sentiments and ideologies of our time through sub themes such as the mass media projection of politics, market populism, and cultural industries, group and corporate identities, representations and spaces of the people, law, order, and security, religious and moral controversy, nationalism, and xenophobia. But all the artists share a common populist premise in their unwillingness to accept the old opposition between mass and elite culture and their desire to investigate the forms of politics, the dreams of democracy, and its remodelling that are being produced in contemporary society. **Internet for Schools** Carol Simpson, Sharron L.
