Machine Learning for Robotics Applications Monica Bianchini, Milan Simic, Ankush Ghosh, Rabindra Nath Shaw, 2021-04-23 Machine learning has become one of the most prevalent topics in recent years The application of machine learning we see today is a tip of the iceberg The machine learning revolution has just started to roll out It is becoming an integral part of all modern electronic devices Applications in automation areas like automotive security and surveillance augmented reality smart home retail automation and healthcare are few of them Robotics is also rising to dominate the automated world The future applications of machine learning in the robotics area are still undiscovered to the common readers We are therefore putting an effort to write this edited book on the future applications of machine learning on robotics where several applications have been included in separate chapters The content of the book is technical It has been tried to cover all possible application areas of Robotics using machine learning This book will provide the future vision on the unexplored areas of applications of Robotics using machine learning The ideas to be presented in this book are backed up by original research results The chapter provided here in depth look with all necessary theory and mathematical calculations It will be perfect for laymen and developers as it will combine both advanced and introductory material to form an argument for what machine learning could achieve in the future It will provide a vision on future areas of application and their approach in detail Therefore this book will be immensely beneficial for the academicians researchers and industry project managers to develop their new project and thereby beneficial for mankind Original research and review works with model and build Robotics applications using Machine learning are included as chapters in this book

Additional Ways to Earn More They Don't Teach Nathen Hache, 2019-08-05 I am not a financial adviser I m a single father of two with passive income solution As any parent knows having kids will teach you lessons in finances that no economics course ever could although I do have a business degree When my wife and I divorced in 2018 it was like a bomb went off I had no more help with childcare no more partner to stay up at night with a sick baby I knew I had to get my finances in better shape in order to provide for myself and my family I knew I wanted to provide for my children and their future needing

such things as college fund a home where they had more space and their own rooms I interacted with the individuals whose finances trumped mine I began to see patterns on how to make money and what makes someone successful and applied them to my own life The idea of ways to make money leveraging my income and making my money work for me instead me working for it triggered and it became my goal to build passive income Especially now I realize how expensive it is to raise children be single and pay for day care Even though as of writing this book we share the kids fifty fifty I still have to take them to day care so I can work Not all the passive income ideas and tips mentioned in this book will work for you Personally I ve implemented a few of the tips written Each tip is different for each individual and you have to do what you feel is best for you What works for me may not necessarily work for you and vice versa I hope something in this book will ignite that fire in you to run with it in your life Whether it s to build wealth add to your retirement or just put a few more bucks in your pocket I am sure there s something in here for you And oh yes I would like to thank our Lord and Savior because without Him none of this would be possible
