**Healthcare Transformation using Artificial Intelligence** Robert JT Morris,2025-07-01 Healthcare Transformation Using Artificial Intelligence provides insights into executing healthcare transformation through AI and deploying health technology at scale. It focuses on improving patient outcomes while managing costs highlighting selected use of AI and contrasting it with a tech push approach. Through interactions with leading clinicians and healthcare administrators this book presents the most urgent challenges facing patients such as lifestyle self empowerment adherence knowledge and behavior change and clinicians including information overload time scarcity rapidly changing guidelines care quality and administrative burdens. The book explains recent AI breakthroughs and critically evaluates their promise showing how AI can be successfully deployed to address these challenges. Real deployments scaling and evidence gathering illustrate the best bets for AI in healthcare. Innovation is moving fast but patient safety clinical trials and regulatory approvals ensure appropriate adoption. This resource is valuable for health professionals scientists researchers practitioners and students wishing to expand their knowledge in this field. Chronicles the healthcare system's problems along with the most promising transformational AI techniques that can be used. Describes data science and AI technologies and why or when they work including examples and references. Gives simple and understandable descriptions in each application area of how the technologies actually work. Includes examples and case studies of applying AI to achieve better patient outcomes while lowering costs.

**Survey of US Higher Education Faculty 2023, Views on and Use of ChatGPT** Primary Research Group Inc., 2023-03-15 This study looks at how faculty of US colleges and universities are experiencing the use of the artificial intelligence program ChatGPT by students and by themselves in their classes. The study also examines how college administration, academic departments and individual professors and other instructors are developing guidelines for ChatGPT use. The report helps its readers to answer questions such as to what extent college faculty feel that ChatGPT undermines traditional approaches to college term papers. How serious a problem is ChatGPT inspired plagiarism and other unattributed uses of ChatGPT? To what degree and how do college faculty feel that ChatGPT should be integrated into traditional paper writing and other college course requirements? Just a few of this report's many findings are that 13.62% of faculty surveyed felt that their college administration had developed general guidelines on student and faculty use of ChatGPT in their classes. Faculty at community colleges were more likely than those of faculty at other institutions to feel that unattributed use of ChatGPT by students was a significant problem. Faculty at private colleges were in general more highly satisfied than faculty at public colleges with the institutional response to challenges of ChatGPT. This 115 page study is based on data from a survey of 954 higher education faculty randomly chosen from nearly 500 colleges and universities in the USA. Data is broken out by personal variables such as work title, gender, personal income level, academic discipline, age and other variables as well as institutional indicators such as college or university type or Carnegie class enrollment size, public or private status and others

[The Best of Europe for Women - Choisir la cause des femmes](#) Choisir la cause des femmes, 2023-10-19T00:00:00+02:00 Gisèle Halimi was not alone in asking herself how women could benefit from the construction of Europe. And the answer they came up with was based on a very simple principle: they were going to take the most advanced laws in force in a European country on a given subject and ensure that these laws applied to all the women citizens of Europe. Today Choisir la cause des femmes is made up of a group of activists, women who are legal experts, lawyers, professors, students, researchers and unemployed. They have decided to focus their efforts on laws determined to drive

progress and change them. They have understood that the details of legislative texts have a huge impact on the way justice is done. So they set off on a tour of Europe to meet their fellow activists and members of feminist organisations. They carried out an investigation so they could put together this second package of laws most favourable to women in the European Union. convinced that change is built together working collectively. A collective book coordinated by Violaine Lucas, president of Choisir la cause des femmes with Maria Cornaz Bassoli, Manon Kerivel, Hanane Rebiba, Sakshi Arya, Ana Cuesta, Noémie Girardot, Lisa Gordet, Manon Maillard, Adèle Monod and Camille Bondon. Gisèle Halimi, feminist lawyer, former member of parliament and French ambassador to UNESCO, co-founded Choisir la cause des femmes with Simone de Beauvoir in 1971. Together with the Choisir activists they won the Bobigny and Aix cases which advanced women's rights and helped to bring about the legalisation of abortion, criminalisation of rape and decriminalisation of homosexuality and were the driving force in the adoption of a law on gender equality. Gisèle Halimi dedicated herself to groundbreaking feminist, social, anti-colonial and anti-imperialist campaigns.
